COURSE OF STUDY.

The Divisions I, II, III, etc., in the foregoing Table, are made with reference rather to the studies in charge of different teachers than to a strictly logical grouping of subjects. The annexed SYLLABUS is intended as a Key to the Table:

DIVISION I.

METAPHYSICS.—*Fourth Term.*—Mental Philosophy precedes and is made the basis of instruction in the Theory and Art of Teaching. It comprises: (1.) An explication of terms. (2.) A general inquiry into the nature of mind: What is it? What are its Facts, Laws and Results? The facts and laws of Knowledge, Feeling and Exertion? (3.) A more particular study of Consciousness, Perception, Memory, Imagination, and the Reflective and Regulative Powers. (4.) The Feelings. Theory of Pleasure and Pain.

THEORY AND ART OF TEACHING.—The *Third*, *Sixth*, *Seventh* and *Ninth* Terms are occupied in this department, with the study of the Science, Methods and History of Education. The course, of necessity, takes a somewhat wide range, so that only a part of the topics can here be enumerated: (1.) The Order, in time, of the Development of the Mental Faculties, and the exercises best adapted to encourage their growth. The special purpose of each Faculty, and the means to train it. Relation of the Mind to the Body, and the effect of the vigorous exercise of each upon the other. Laws of Bodily Health: Ventilation; Posture; Gymnastics; Formation of Courses of Study. (2.) Motives: The incentives which a teacher may allow to act upon himself or his pupils. The Conscience—how it should be educated. (3.) The Organization and classification of Schools. Programme of Daily Exercises. The Recitation. School Government. (4.) History of Systems and Methods of Education. Biographies of Eminent Teachers. (5.) Drill Exercises in Teaching. Observation and Practice in the Model School. General Teaching Exercises before the Normal School.

Eighth Term.—The Constitutions of the United States and of the State of Illinois. Duties of Teachers as Citizens.

Ninth Term.—The School Laws of Illinois. School Supervision and Management. School-House Architecture. Practice in the Model School. General Exercises in the Normal School.

DIVISION II.

READING.—*First Term.*—Analysis of Words according to their elementary sounds. Articulation and Pronunciation. Compass and Flexibility of Voice. Analysis of Words according to their derivation and formation.

GRAMMAR.—*Second Term.*—Etymology during the first half of the term. Aim to teach the office of each part of speech in the construction of sentences. Critical Parsing. During the last half of the term, Construct, Analyze and Parse sentences of various kinds. Daily exercise throughout the term in the Correction of false Syntax.

Third Term.—Analysis and Construction of Sentences continued. Rules of Syntax. Capitalization. Consideration of Abridged Propositions and Idiomatic Forms and Constructions Daily exercise in the Correction of False Syntax.

RHETORIC.—*Fourth Term.*—Formation of the English Language. Literary Taste. Figurative Language. Style and its varieties. Punctuation. Composition. Analysis and Amplification of Subjects.

READING.—*Fifth Term.*—Modulation. Prosody. Composition read once a week during the term.

LITERARY CRITICISM.—*Sixth Term.*—Examine the style of the best English Authors of different periods. Study particularly the style of Milton, Addison, Goldsmith, etc. Blair's Rhetoric. Compositions during the term.

Eighth Term.—History of English Literature. Rise and Development in England and America, of Poetry, History, Romance, the Essay, Oratory, and Metaphysics. Principal Authors in each department. Newspapers, Reviews, and Magazines. English Literature compared with that of other nations. Orations and Essays written weekly, and delivered or read in the presence of the students.

DIVISION III.

ARITHMETIC.—*First Term.*—The Decimal System; including Decimal Fractions, so called. Factoring, and its application to Common Multiples and Divisors. Fractions. Compound Numbers.

Second Term.—Ratio and Proportion. Percentage, with its application to Loss and Gain, Commission, Insurance, etc. Percentage with Time, including Interest, Discount, Partnership, and Equation of Payments. Exchange (Inland and Foreign). Extraction of Second and Third Roots of Numbers. Arabic method of Notation, using bases other than 10; applied particularly to Duodecimals.

ALGEBRA.—*Third Term.*—Algebraic Notation. Factoring, with application to Divisors and Multiple. Fractions. Equations of First Degree. Extraction of the Roots of Algebraic Quantities. Rules deduced for the extraction of the Roots of Numbers. Radicals.

Fourth Term (Optional).—Equations of Second Degree. Ratio and Proportion. Series: including the Progression, Binomial Expansion, Permutation, Undetermined Coefficients, Methods of Interpolation, and the methods of Summing Special Forms; Piling of Balls and Shells. Logarithms, with Methods of Computing the Tables. Exponential Equations, with position. Interest and Annuities.

GEOMETRY.—*Fourth Term.*—Straight Line, and Surfaces bounded by straight lines. The Circle. Extra Theorems and Problems given for demonstration and solution.

Fifth Term.—Solids bounded by Planes. The Cylinder. The Cone. Surface and Solidity of Sphere. Plane Trigonometry, with its application to Land Surveying. Leveling. Variation of Magnetic Needle.

Eighth and Ninth Terms. (Optional).—Equations of Point, Right Lines and Circle. Equations of Point, Right Lines, and Plane, in Sphere Equations of Cylinder and Cone. General Equation of Conic Section referred to its own Plane. General Equation of Second Degree be-

tween two Variables. Loci. Surface of Revolution. Differential Calculus. Integral Calculus.

PHYSICS.--*Seventh Term.*--Laws of Motion and Mechanics, Hydrostatics and Hydraulics. Pneumatics. Optics. Electricity and Magnetism.

DIVISION IV.

GEOGRAPHY.--*First Term.*--(1). General Principles of Geography: Execution of Maps, and Outline of South America, 15 lessons; Andes Mountains and countries containing them, 13 lessons; Remaining countries of South America, 5 lessons; Cities of South America, 5 lessons; Review, 5 lessons. Total for South America, 43 lessons. (2) Outline and Map of North America, 5 lessons; Russian and British America, 5 lessons; New England and New York, 12 lessons. Astronomical Geography, Latitude and Longitude, Day and Night, the Seasons, etc., 5 lessons. Review, 5 lessons.

Second Term.--(1) Remaining States and Territories of the United States, 22 lessons; Mexico, Central America, etc., 5 lessons; Review, 3 lessons. Total for North America, 52 lessons. (2) Outline and Map of Europe, 5 lessons; Mountains and Rivers of the Continent, 5 lessons; Rapid glance at the countries of the Continent, 10 lessons; More thorough study of Britain as a model, 10 lessons; Review, 5 lessons. Total for Europe, 35 lessons.

Sixth Term.--(1). Outline and map of Asia, 5 lessons; Mountains and Rivers of Asia, 5 lessons; Countries and Cities, 10 lessons; Total for Asia, 20 lessons. (2) *Physical Geography.* Review of the Earth's Form, with a sketch of the Theory of its Origin, 10 lessons; Physical Life of the Earth, Temperature, Atmospheric and Marine Currents; Rains, and the Effects of Climatic Conditions on Vegetable and Animal Life, 12 lessons. Historical View of the Earth; the Relations of its Forms and Physical Life to the Development of the Human Race, 8 lessons; Review, 10 lessons. Total for Physical Geography, 40 lessons.

UNITED STATES HISTORY.--*Fourth Term.*--Voyages, Discoveries, and Indian Tribes, 10 lessons; Colonial History, 15 lessons; French War and Revolution, 20 lessons; Subsequent History, with a special study of Illinois, 15 lessons; Review 15 lessons. Text-Book,--Wilson.

ANCIENT HISTORY.--*Fifth Term.*--*One Term* [13 *weeks*]--65 lessons. Early Asiatic Nations, 7 lessons; Grecian History, 12 lessons; Roman History, 15 lessons; Most Prominent Events of the Middle Ages, 10 lessons; Britons, 5 lessons; Review, 15 lessons. Text-Book,--Weber.

ASTRONOMY.--*Eighth Term.*--Definitions, with Oral Lessons and Exercises, 5 lessons; Constellations, with Maps of the Heavens, 15 lessons; Refraction, Parallax, Time, the Seasons, Motions, Distances and Orbits of Planets, 15 lessons; General Description of the Solar System, 14 lessons; Eclipses and Tides, 5 lessons; Review, 10 lessons. Total, 65 lessons. Text-Books,--Robinson's and Burritt's.

DIVISION V.

CHEMISTRY.--*Fifth Term.*--Names and Properties of Elements; Symbols; Formulæ; Chemical Affinity, etc. Laws of Definite Proportions. Behavior of Chemical Bodies toward each other. Changes of Form, Color, Properties Air, Water, Light, their Relations to organic life. Organic Chemistry. Food of Plants. Outline of Chemical Analysis, Qualitative and Quantitative. Philosophy of Chemistry.

BOTANY.--*Sixth Term.*--Structure of Plants, Mode of Growth, etc. Their relations to each other. Classification. Systems of Analysis, Natural and Linnæan. Written Analysis of at least seventy-five specimens of native plants by the Natural System.

ANATOMY AND PHYSIOLOGY.--*Seventh Term.*--General View of the Structure and Functions of the Human Body. Food and the Digestive Process. The Blood: its Chemical Composition and Vital Properties. Respiration and Nutrition. The Nervous System. The Laws of Hygiene.

ZOOLOGY.--*Ninth Term.*--The Sphere and Fundamental Principles of Zoology. General Properties of Organized Bodies. Functions and Organs of Animal Life. Intelligence and Instinct. Metamorphoses of Animals. Geographical Distribution of Animals.

ADMISSION.

Students seeking admission to the University should make application to the School Superintendent of the county in which they reside, and are required—

(1.) To be, if males, not less than 17, and if females, not less than 16, years of age.

(2.) To produce a certificate of good moral character, signed by some responsible person.

(3.) To sign a declaration of their intention to devote themselves to school-teaching in this State, in form as follows:

"I hereby declare my intention to become a teacher in the schools of this State; and agree that for three years after leaving the University I will report in writing to the Principal thereof, in June and December of each year, where I have been and in what employment."

(4.) To pass a satisfactory examination, before the proper officers (County School Superintendents), in Reading, Spelling, Writing, Arithmetic, Geography, and the elements of English Grammar.

EXTRACT FROM THE NORMAL UNIVERSITY ACT.

SEC. 7.—Each County within the State shall be entitled to gratuitous instruction for one pupil in said Normal University, and each Representative District shall be entitled to gratuitous instruction for a number of pupils equal to the number of representatives in said district, to be chosen in the following manner: The School Superintendent in each county shall receive and register the names of all applicants for admission to said Normal University, and shall present the same to the County Court, or, in counties acting under township organization, to the Board of Supervisors, which said County Court or Board of Supervisors, as the case may be, shall, together with the School Superintendent, examine all applicants so presented, in such manner as the Board of Education may direct, and from the number of such as shall be found to possess the requisite qualifications, such pupils shall be selected by lot; and in representative districts, composed of more than one county, the School Superintendent and County Judge, or the School Superintendent and Chairman of the Board of Supervisors in counties acting under township organization, as the case may be, of the several counties composing such representative district, shall meet at the Clerk's office of the County Court of the oldest county, and from the applicants so presented to the County Court or Board of Supervisors of the several counties represented, and found to possess the requisite qualifications, shall select by lot the number of pupils to which said district is entitled. The Board of Education shall have discretionary power, if any candidate does not sign and file with the Secretary of the Board a declaration that he or she will teach in the public schools within this State, in case that engagement can be secured by reasonable efforts, to require such candidate to provide for the payment of such fees for tuition as the Board may prescribe.

(AMENDED FEBRUARY, 1861.)

SEC. 4.—Each County in this State shall, hereafter, be entitled to gratuitous instruction for two pupils in said University, to be selected as provided in Section Seven of the Act to which this is an amendment.

The following was adopted by the Board of Education, December 18th, 1861:

RESOLVED, That the Principal may, at his discretion, admit to the Normal University more than two students from each county, provided the whole number of students shall not exceed the aggregate of two from each county, and one from each representative district.

The most favorable time for the admission of students is at the beginning of the Fall Term.

Students are expected to be present on the first day of each Term.

OBJECTS AND OTHER MATTERS.

The OBJECTS to be attained by the Normal School are stated in the Fourth Section of the Charter of Incorporation.

SEC. 4.—The object of the said Normal University shall be to qualify teachers for the common schools of this State, by imparting instruction in the art of teaching, in all branches of study which pertain to a common school education, in the elements of the natural sciences—including agricultural chemistry, animal and vegetable physiology—in the fundamental laws of the United States and of the State of Illinois, in regard to the rights and duties of citizens, and in such other duties as the Board of Education may from time to time prescribe.

Thorough discipline will be enforced in every department of the University.

Experience has shown it to be very necessary that a perfect understanding should exist between the Principal and those with whom the students board, in respect to the habits and conduct of students at their rooms. This will accordingly be carefully attended to.

Physical Exercises will be had daily in all the departments.

BOARD can be obtained in good families for about $4.00 a week, exclusive of fuel, lights and washing; when these are furnished, except washing, the charge is a little more.

The expense of board is reduced about one-half, by boarding in clubs, and by self-boarding.

The following may be considered a near approximation to the necessary EXPENSES for one year, exclusive of pocket-money, apparel, traveling, and board in vacations:

Board, 40 weeks	from $80.00 to	$160.00
Washing	" 12.00 to	18.00
Books and Stationery	" 5.00 to	10.00
Total	$97.00	$188.00

Tuition is Free.

TEXT-BOOKS are furnished free of expense, but every student is required to make good all damages received by books while in his possession.

Students are advised to bring with them such books as they may have, but not to purchase others until they arrive at the University.

The APPARATUS is excellent in quality, and sufficiently ample for ordinary purposes of illustration.

The DIPLOMA of the University is conferred upon all those who creditably complete its full course of study and practice.

There are two LITERARY SOCIETIES, the Philadelphian and the Wrightonian, each of which has a well-selected library.

The MUSEUM and LIBRARY of the Illinois Natural History Society are located in the University building, to which the students of the University will have access, under suitable restrictions.

SUGGESTED FORM OF CERTIFICATE.

I hereby certify that I am well acquainted with .....and know him [or her] to be a person of good moral character.

In case the School Superintendent is not able to make the above certificate himself, something like the following indorsement should be appended by the School Superintendent:

I am well acquainted with ....., who signs the above certificate, and believe him to be an entirely reliable man, and so far as I know and believe, the above named applicant is a person of good moral character.

MODEL SCHOOL.

COURSE OF STUDY, ETC.

The Model Department was established in order that there might be a school, exhibiting the best methods of teaching, discipline and classification, which the Normal Students should visit, and in which they should take part as instructors. Every effort will be put forth to make this, as far as may be, a perfect school, conducted upon the best methods, and showing the most wholesome results.

It is intended that the course of study in its several departments shall embrace all that belongs to a thorough education, from the elements up to a preparation either for College or Business. For the lower classes, a system of Object Lessons has been prepared with the greatest care. The design of this is to awaken the perceptive faculties, and to form a habit of accurate observation. Children thus trained not only make more thorough scholars, but also more practical men and women.

The accompanying plan of study will give a general idea of the subjects to be pursued in the higher department, and of the time allotted to each. It will be observed that two distinct courses are arranged for the High School: one to prepare students for College, and the other for general business. The two, however, are made to blend whenever practicable.

The only requisites for admission are a small tuition fee, and a good character.

Boys and girls from abroad may be confidently entrusted to the care of the Principal, Mr. Pillsbury, and besides the monthly report of scholarship and deportment at school, which is to be sent to all parents, he will include, if desired, a careful statement of each pupil's general deportment, and of the manner of spending leisure hours.

Physical Exercises are daily practiced by the entire school.

CALNEDAR FOR 1865--66.

The School Year of Forty Weeks is divided into Three Terms.

The First Term begins Monday, September 11th, and continues Fifteen Weeks. Semi-annual Meeting of the Board of Education, Wednesday, December 20th. Examination at close of Term.

VACATION OF ONE WEEK.

The Second Term begins Monday, January 1st, 1866, and continues Thirteen Weeks.

VACATION OF ONE WEEK.

The Third Term begins Monday, April 9th, and continues Twelve Weeks. Examination during the last Week of Term. Annual Meeting of the Board of Education, Wednesday, June 27th. Annual Meeting of the Illinois Natural History Society, Wednesday, June 27th. Address before the Literary Societies, Wednesday Evening, June 27th. Commencement Exercises, Thursday, June 28th.

VACATION OF TEN WEEKS

NORTH-WESTERN

Normal Academy of Music

BLOOMINGTON, - - ILLINOIS.

INCORPORATED FEB. 10TH, 1865.

H. EVERLY,	WM. OLLIS,	E. B. WINCHESTER.

OFFICERS OF THE BOARD OF REGENTS:

PRESIDENT:
PROF. RICHARD EDWARDS,
STATE NORMAL UNIVERSITY.

SECRETARY:
PROF. DANIEL WILKINS,
WESLEYAN UNIVERSITY.

TREASURER:
C. W. HOLDER, ESQ.,
HOME BANK.

EXECUTIVE COMMITTEE:

PROF. D. WILKINS, MR. JAS. ALLIN, JR.,
H. EVERLY, ESQ.

CIRCULAR FOR 1865.

Term Commences Sept. 6th, and Closes Oct. 17th.

THE NORTH-WESTERN NORMAL ACADEMY OF MUSIC held its first session in the Fall of 1864, with an attendance in its different departments of about Four Hundred Students.

The Second Term will commence on Wednesday, Sept. 6th, 1865, and continue SIX WEEKS, with the following elected

FACULTY:

JOHN ZUNDEL, PRESIDENT,
And Professor of Organ, Piano Forte, Counterpoint and Fugue.

B. F. BAKER, (BOSTON MASS.)
Professor of Musical Composition, and Theory of Teaching.

J. S. THOMSON, (NEW YORK CITY.)
Professor of Violin, Guitar and Psalmody.

H. BIRD, (BOSTON, MASS.,)
Professor of Rudimental Class Teaching and Model School.

J. F. FARGO, PRINCIPAL,
And Professor of Vocal Culture and Musical Elocution.

☞A competent Assistant will also be in attendance, and conduct the Singing School Department of the Academy.

The leading object of this Institution, is *primarily* to aid teachers, choristers or conductors, in qualifying themselves better for their work; and *secondarily*, to afford an opportunity for improvement to such persons as, having already commenced the study of music, either vocal or instrumental, are desirous of further improvement, both in practical and theoretical departments.

CLASSES.

The exercises of the Academy are mostly in classes. In the Vocal Culture Department, however, attention will be given to each voice separately; and the teacher will endeavor to become acquainted with every merit and every defect.

HARMONY AND COMPOSITION CLASSES.

Of these there will be two: a primary class for the study of Thorough Bass, including instruction as to the formation of chords, their relations, inversions, and progressions; and an advanced class for exercises in practical modulation, both instrumentally and in writing.

TEXT-BOOK.—Zundel's Treatise on Harmony and Modulation.

VOCAL CULTURE.

Voice Training, or Cultivation of the Voice, including exercises for the management of the breath, formation and delivery of tones and also of tones in connection with words, or their musical enunciation, articulation and pronunciation; also in different qualities of tone as adapted to express the various emotions. These classes will be under the immediate care of the Principal, and the voice of each member of the class will be carefully examined and classified, and will receive daily attention.

TEACHER'S CLASS.

A systematic course of instruction in Musical Notation will be presented before this class, and the best methods of teaching Singing Schools will be illustrated and discussed before the

TEACHER'S NORMAL CLASS.

In this class each gentleman member, unless excused by the Principal, will be required to present a lesson in vocal music, (all other members acting as his pupils,) after which, his manner of teaching, style of expression, etc., etc., will be candidly and kindly criticised by the members of the class, and by the Professor of this department who will have the class in charge.

PSALMODY CLASS.

The subject of *Choir* and *Congregational* Singing, and the best methods of sustaining this important part of worship, will here receive careful attention; and a portion of each day will be devoted to the subject of a correct rendering of Psalmody.

CHORUS PRACTICE.

A Chorus Class, conducted by the different members of the Faculty, will meet five evenings in each week during the term.

TEXT-BOOKS.—*Farmer's Mass in B flat*, and Standard Choruses from the best Oratorios.

ORCHESTRA.

A class for studying the Violin, and other orchestral instruments, will be formed, if it is desired by the students who play those instruments.

ORGAN PRACTICE.

The citizens of Bloomington have recently purchased a Fine Pipe Organ, of Twenty-two Stops, which will be used for the accommodation of such students as desire to study that noble instrument. Mr. Zundel will also bring a Reed Organ of the largest size—having two Manuals of Keys, Ten Stops, Pedal Bass, &c.—that his students may all be accommodated with instruments for practice.

PRIVATE INSTRUCTION.

Each member of the Faculty will give private lessons, in his department, to all who desire them.

TERMS.—$1.00 per lesson.

TEXT BOOKS.

The expense for Manual of Harmony and Music Paper for writing exercises in Harmony, will be about one dollar. All other Text Books will be furnished free of charge.

DISCIPLINE.

The roll will be called each morning at Chapel exercises, and absentees, if not excused by the Principal, will be reported. By frequent absence from any class to which the pupil belongs, or any improper course of conduct, or by continued non-compliance with the rules of the Institution, he will subject himself to the penalty of suspension or expulsion, at the option of the faculty.

TERMS.

For all class exercises, (payable in advance,)	$18 00
Private Lessons, (each,)	1 00
Manual of Harmony, &c., (about)	1 00

It is highly important that all who desire to avail themselves of the advantages of this Institution, should attend the FULL COURSE. Those who cannot do so, however, can enter the Academy for *Four Weeks*, by paying $12.00.

All who intend becoming members of the Academy, should write as early as possible to the Principal, stating what branches of study they intend to pursue, so that instruments (if needed) may be provided—also that boarding places may be secured.

For any information not herein given, address the Principal,

J. F. FARGO,
Bloomington, Ill.

Or Letters sent in care of either

ROOT & CADY,
H. M. HIGGINS, or,
LYON & HEADY,
Music Publishers, Chicago, Ill.,

Will be received promptly.

NOTE.—The "*North-Western Normal Academy of Music*" was Incorporated by an Act of the Legislature during its last session, and may now be regarded as a *Permanent Institution*. It being empowered to confer Degrees, grant Diplomas, &c., &c., an arrangement is about completed by which students, attending the full course of three years, will receive a Diploma upon passing a satisfactory examination before the Faculty and Board of Regents.

STUDENTS.

SENIOR CLASS.

Harriet M. Case,	*Wyoming, Lee.*
Martha Foster,	*Douglas, Knox.*
Harriet A. Fyffe,	*Normal, McLean.*
Margaret McCambridge,	" "
Mary E. Pearce,	" "
Alice B. Piper,	*Macomb, McDonough.*
Helen M. Plato,	*Geneva, Kane.*
Sarah E. Raymond,	*Lisbon, Kendall.*
Olive A. Rider,	*Griggsville, Pike.*
Julia E. Stanard,	*Lamoille, Bureau.*
Nelson Case,	*Wyoming, Lee.*
Philo A. Clark,	*Decatur, Macon.*
John Ellis, Jr.,	*El Paso, Woodford.*
Joseph Hunter,	*Guilford, Winnebago.*
Richard Porter,	*Decatur, Macon.*

SENIORS, ... 15.

CLASSIFICATION.—The Senior Class includes those who graduated this year. The Middle Class includes undergraduates who have finished more than one year's study: Section A have accomplished more than two years' work; Section B, just two years'; and Section C, less than two. The Junior Class includes students who have done one year's work or less: Section A have done just one year's work; Section B, the work of two terms; and Section C, a less amount.

N. B. The name of no student appears in the Catalogue unless he has been in school at least four weeks, in the current year.

MIDDLE CLASS.

SECTION A.

Lydia Hollingsworth,	*Oquawka, Henderson.*
Onias C. Barber,	*Richview, Washington.*
George E. Hinman,	*Eden, Lasalle.*
James S. Stevenson,	*Sparta, Randolph.*

SECTION B.

Mary I. Abraham,	*Elmwood, Peoria.*
Mary J. Brown,	*Barry, Pike.*
Emily C. Chandler,	*Middleport, Iroquois.*
Florence Chandler,	" "
Emily H. Cotton,	*Griggsville, Pike.*
Mary W. French,	" "
Mary Pennell,	*Granville, Putnam.*
Eliza A. Pratt,	*Oneida, Knox.*
*John R. Edwards,	*Normal, McLean.*
Cyrus W. Hodgin,	*Richmond, Indiana.*
William A. McBane,	*Metropolis, Massac.*
Frederic J. Seybold,	*Lasalle, Lasalle.*

SECTION C.

Ella M. Angle,	*Champaign, Champaign.*
Caroline A. Bacon,	*Normal, McLean.*
Ruthie E. Barker,	*Elgin, Kane.*
Annetta L. Benton,	*Sublette, Lee.*
Melissa E. Benton,	" "
Julia M. Brackett,	*Lee Centre, Lee.*
Ann Eliza Bullock,	*Tonica, Lasalle.*
Lucretia C. Davis,	*Greenbush, Warren.*
Etta S. Dunbar,	*Afton, DeKalb.*

*This young man was a soldier, who, upon his discharge, took up his residence in Normal, solely to attend the University. There are many similar cases. For this reason, Normal is credited with more students than strictly belong here.

Lucy French,	*Greenfield, Greene.*
Mary Fyffe,	*Normal, McLean.*
Lucy A. Green,	*Elizabeth, JoDaviess.*
Lucia Kingsley,	*Tonica, Lasalle.*
Martha Lemen,	*De Witt, De Witt.*
Sarah C. Moffitt,	*Chillicothe, Peoria.*
Jane E. Pennell,	*Granville, Putnam.*
Mary A. Pike,	*Bloomington, McLean.*
Emma T. Robinson,	*Delavan, Logan.*
Mary J. Smith,	*Clinton, De Witt.*
Margaret L. Stobie,	*Pittsfield, Pike.*
Clara E. Watts,	*Sandoval, Marion.*
Hannah E. Worden,	*Young America, Henderson.*
Francis A. Belford,	*Winchester, Scott.*
Stephen Bogardus,	*Bonus, Boone.*
John N. Dewell,	*Barry, Pike.*
John W. Lummis,	*Gilmer, Adams.*
Henry McCormick,	*Leroy, Boone.*
Charles W. Moore,	*Normal, McLean.*
William Russell,	*Webster, Indiana.*
Thomas J. Scholes,	*Chillicothe, Peoria.*

MIDDLE CLASS, ... 46.

JUNIOR CLASS.

SECTION A.

Caroline L. Bass,	*Berlin, Bureau.*
Ellen Blain,	*De Witt, De Witt.*
Elizabeth C. Brown,	*Athens, Menard.*
Jemima S. Burson,	*Richmond, Indiana.*
Lydia A. Burson,	" "
Julia C. Chappelear,	*Clinton, De Witt.*
Matilda Chappelear,	" "
Julia M. Dean,	*Morrison, Whiteside.*

COURSE OF STUDY.

The Divisions I, II, III, etc., in the foregoing Table, are made with reference rather to the studies in charge of different teachers than to a strictly logical grouping of subjects. The annexed SYLLABUS is intended as a Key to the Table.

DIVISION I.

THEORY AND ART OF TEACHING. *Third Term.* (1.) Organization of Schools, and the Principles involved in it. Objects of School, and Nature of Education. Classification: On what basis should it be made? How large should classes be? Programme of Daily Exercises: How should it be adjusted? Should every study have the same time for recitation with every other? Why? Usefulness of such a programme. (2.) Objects to be aimed at in Recitation: How may the teacher promote the habit of Industry in his pupils? Correct Habits of Study? A correct Use of Language? Honesty? Kindness and Good Manners? The kind of Questions that should be employed in recitation. (3.) The Order, in time, of the Development of the Mental Faculties, and the Exercises best adapted to promote such development. (4.) Education of the Senses: Possibility of such culture. The Use to be made of Colors, Forms, Vocal Analysis, Reading, Music, in educating the Senses. The School Studies best adapted to the training of the Senses. (5.) Education of the Memory: Law of its Culture. Closeness of Attention. Association. Reviews. Practical Use of Facts remembered. Accuracy of Statement. Studies best adapted to this culture. (6.) Education of the Reasoning Power: How to use the ordinary School Studies in developing this power,—History, Reading, Grammar, Arithmetic, the Natural Sciences. (7.) Education of the Imagination: Importance of such culture,—Æsthetically, Intellectually, Morally. Means of this culture,—Study of Nature; Study of the Classic Models in Literature; Study of Works of Art. (8.) Education of the Will: Directions in which it should be strengthened. The training required for a person of Feeble Will. How to use the circumstances of a pupil in school in such a way as to strengthen his persistency in carrying out Right Purposes. (9.) Necessity of making Education Universal: The Value of Mind. The Good of Society demands that all should be educated. Influence of Education upon Crime. Social Benefits resulting from Education.

METAPHYSICS. *Fourth Term.* Mental Philosophy precedes and is made the basis of instruction in the Theory and Art of Teaching. It comprises—(1.) An Explication of Terms. (2.) A general inquiry into the Nature of Mind: What is it? What are its Facts, Laws, and Results? The facts and laws of Knowl-

edge, Feeling, and Exertion? (3.) A more particular study of Consciousness, Perception, Memory, Imagination, and the Reflective and Regulative Powers. (4.) The Feelings. Theory of Pleasure and Pain.

The Graded School. *Sixth Term.* Discussion of the Grading of a System of Schools, with the amount and kind of instruction required in each.

History of Education. *Seventh Term.* A History of the Culture of different Nations, from the earliest times down to the present; also, the Biography of Eminent Educators in all countries and times.

Philosophy of Education and Object Lessons. *Ninth Term.* Oral Discussions and Themes.

Practical Teaching in Model School is required for Four Terms, under the Supervision of the Faculty.

DIVISION II.

Reading. *First Term.* Analysis of Words according to their Elementary Sounds. Articulation and Pronunciation. Compass and Flexibility of Voice. Analysis of Words according to their Derivation and Formation.

Grammar. *Second Term.* Etymology during the first half of the term: Aim to teach the office of each part of speech in the Construction of Sentences. Critical Parsing. During the last half of the term, Construct, Analyze, and Parse, sentences of various kinds. Daily exercise throughout the term in the Correction of False Syntax.

Third Term. Analysis and Construction of Sentences continued. Rules of Syntax. Capitalization. Consideration of Abridged Propositions and Idiomatic Forms and Constructions. Daily exercise in the Correction of False Syntax.

Rhetoric. *Fourth Term.* Formation of the English Language. Literary Taste. Figurative Language. Style, and its varieties. Punctuation. Composition. Analysis and Amplification of subjects.

Reading. *Fifth Term.* Modulation. Prosody. Composition read once a week during the term.

Literary Criticism. *Sixth Term.* Examine the style of the best English Authors of different periods. Study particularly the style of Milton, Addison, Goldsmith, etc. Blair's Rhetoric. Compositions during the term.

Eighth Term. History of English Literature. Rise and Development, in England and America, of Poetry, History, Romance, the Essay, Oratory, and Metaphysics. Principal Authors in each department. Newspapers, Reviews, and Magazines. English Literature compared with that of other nations. Orations and Essays written weekly, and delivered or read in the presence of all the students.

DIVISION III.

ARITHMETIC. *First Term.* The Decimal System, including Decimal Fractions, so called. Factoring, and its application to Common Multiples and Divisors. Fractions. Compound Numbers.

Second Term. Ratio and Proportion. Percentage, with its application to Loss and Gain, Commission, Insurance, etc. Percentage with time, including Interest, Discount, Partnership, and Equation of Payments. Exchange (Inland and Foreign). Extraction of Second and Third Roots of numbers. Arabic method of Notation, using bases other than 10: applied particularly to Duodecimals.

ALGEBRA. *Third Term.* Algebraic Notation. Factoring, with application to Divisors and Multiples. Fractions. Equations of First Degree. Extraction of the Roots of Algebraic Quantities. Rules deduced for the extraction of the Roots of Numbers. Radicals.

Fourth Term (Optional). Equations of Second Degree. Ratio and Proportion. Series: including the Progressions, Binomial Expansion, Permutation, Undetermined Coëfficients, Methods of Interpolation, and the Methods of Summing Special Forms; Piling of Balls and Shells. Logarithms, with Methods of Computing the Tables. Exponential Equations, with Position. Interest and Annuities.

GEOMETRY. *Fourth Term.* Straight Line, and Surfaces bounded by Straight Lines. The Circle. Extra Theorems and Problems given for demonstration and solution.

Fifth Term. Solids bounded by Planes. The Cylinder. The Cone. Surface and Solidity of Sphere. Plane Trigonometry, with its application to Land-Surveying. Leveling. Variation of Magnetic Needle.

Eighth and Ninth Terms (Optional). Equations of Point, Right Lines, and Circle. Equations of Point, Right Lines, and Plane in Sphere. Equations of Cylinder and Cone. General Equation of Conic Section referred to its own Plane. General Equation of Second Degree between two Variables. Loci. Surfaces of Revolution. Differential Calculus. Integral Calculus.

PHYSICS. *Seventh Term.* Laws of Motion and Mechanics. Hydrostatics and Hydraulics. Pneumatics. Optics. Electricity and Magnetism.

DIVISION IV.

GEOGRAPHY. *First Term.* (1.) General Principles of Geography. Execution of Maps, and Outline of South America, 15 lessons; Andes Mountains, and countries containing them, 13 lessons; remaining countries of South America, 5 lessons; Cities of South America, 5 lessons; Review, 5 lessons. Total for South America, 43 lessons. (2.) Outline and Map of North America, 5 lessons; Russian and British America, 5 lessons; New England and New York, 12 lessons. Astronomical Geography, Latitude and Longitude, Day and Night, the Seasons, etc., 5 lessons. Review, 5 lessons.

Second Term. (1.) Remaining States and Territories of the United States, 22 lessons; Mexico, Central America, etc., 5 lessons; Review, 3 lessons. Total for North America, 52 lessons. (2.) Outline and Map of Europe, 5 lessons;

Mountains and Rivers of the Continent, 5 lessons; Rapid Glance at the Countries of the Continent, 10 lessons; More thorough study of Britain as a model, 10 lessons; Review, 5 lessons. Total for Europe, 35 lessons.

Sixth Term. (1.) Outline and Map of Asia, 5 lessons; Mountains and Rivers of Asia, 5 lessons; Countries and Cities, 10 lessons. Total for Asia, 20 lessons. (2.) Physical Geography. Review of the Earth's Form, with a sketch of the Theory of its Origin, 10 lessons; Physical Life of the Earth, Temperature, Atmospheric and Marine Currents, Rains, and the Effects of Climatic Conditions on Vegetable and Animal Life, 12 lessons. Historical View of the Earth: the Relations of its Forms and Physical Life to the Development of the Human Race, 8 lessons; Review, 10 lessons. Total for Physical Geography, 40 lessons.

United States History. *Fourth Term.* Voyages, Discoveries, and Indian Tribes, 10 lessons; Colonial History, 15 lessons; French War and Revolution, 20 lessons; Subsequent History, with a special study of Illinois, 15 lessons; Review, 15 lessons. Text-Book—Willson.

Ancient History. *Fifth Term. One Term* (13 *weeks*); 65 *Lessons.* Early Asiatic Nations, 8 lessons; Grecian History, 12 lessons; Roman History, 15 lessons; Most prominent Events of the Middle Ages, 10 lessons; Britons, 5 lessons; Review, 15 lessons. Text-Book—Weber.

Astronomy. *Eighth Term.* Definitions, with Oral Lessons and Exercises, 5 lessons; Constellations, with Maps of the Heavens, 15 lessons; Refraction, Parallax, Time, the Seasons, Motions, Distances and Orbits of Planets, 15 lessons; General Description of the Solar System, 15 lessons; Eclipses and Tides, 5 lessons; Review, 10 lessons. Total, 65 lessons. Text-Books—Robinson's and Burritt's.

DIVISION V.

Chemistry. *Fifth Term.* Names and Properties of Elements; Symbols; Formulæ; Chemical Affinity, etc. Laws of Definite Proportions. Behavior of Chemical Bodies toward each other. Changes of Form, Color, Properties. Air, Water, Light,—their relations to Organic Life. Organic Chemistry. Food of Plants. Outline of Chemical Analysis, qualitative and quantitative. Philosophy of Chemistry.

Botany. *Sixth Term.* Structure of Plants, Mode of Growth, etc. Their relations to each other. Classification. Systems of Analysis, Natural and Linnæan. Written Analysis of at least seventy-five species of native plants by the Natural system.

Anatomy and Physiology. *Seventh Term.* General View of the Structure and Functions of the Human Body. Food, and the Digestive Process. The Blood,—its Chemical Composition and Vital Properties. Respiration and Nutrition. The Nervous System. The Laws of Hygiene.

Zoölogy. *Ninth Term.* The Sphere and Fundamental Principles of Zoölogy. General Properties of Organized Bodies. Functions and Organs of Animal Life. Intelligence and Instinct. Metamorphoses of Animals. Geographical Distribution of Animals.

ADMISSION.

This Institution is intended for the training of young persons of both sexes for teachers in the Schools of Illinois.

Students seeking admission to the University should make application to the School Superintendent of the county in which they reside, and are required—

(1.) To be, if males, not less than 17, and if females, not less than 16, years of age.

(2.) To produce a certificate of good moral character, signed by some responsible person.

(3.) To sign a declaration of their intention to devote themselves to School-teaching in this State, in form as follows:

"I hereby declare my intention to become a teacher in the schools of this State; and agree that, for three years after leaving the University, I will report in writing to the Principal thereof, in June and December of each year, where I have been, and in what employment."

(4.) To pass a satisfactory examination, before the proper officers (County School Superintendents), in Reading, Spelling, Writing, Arithmetic, Geography, and the elements of English Grammar.

EXTRACT FROM THE NORMAL-UNIVERSITY ACT.

Sec. 7. Each County within the State shall be entitled to gratuitous instruction for one pupil in said Normal University, and each Representative District shall be entitled to gratuitous instruction for a number of pupils equal to the number of representatives in said district, to be chosen in the following manner: The School Superintendent in each county shall receive and register the names of all applicants for admission to said Normal University, and shall present the same to the County Court, or in counties acting under township organization to the Board of Supervisors; which said County Court or Board of Supervisors, as the case may be, shall, together with the School Superintendent, examine the applicants so presented, in such manner as the Board of Education may direct, and from the number of such as shall be found to possess the requisite qualifications such pupils shall be selected by lot; and in representative districts composed of more than one county, the School Superintendent and County Judge, or the School Superintendent and Chairman of the Board of Supervisors in counties acting under township organization, as the case may be, of the several counties composing such representative dis-

trict, shall meet at the Clerk's office of the County Court of the oldest county, and from the applicants so presented to the County Court or Board of Supervisors of the several counties represented, and found to possess the requisite qualifications, shall select by lot the number of pupils to which said district is entitled. The Board of Education shall have discretionary power, if any candidate does not sign and file with the Secretary of the Board a declaration that he or she will teach in the public schools within this State, in case that engagement can be secured by reasonable efforts, to require such candidate to provide for the payment of such fees for tuition as the Board may prescribe.

(AMENDED FEBRUARY, 1861.)

SEC. 4. Each County in this State shall, hereafter, be entitled to gratuitous instruction for two pupils in said University, to be selected as provided in Section Seven of the Act to which this is an amendment.

If any County or Representative District neglects to make appointments, the President of the University is, by a resolution adopted by the Board of Education, authorized to fill the vacancy by appointing any person of proper age and qualification. Every such person must pass, before the President, an examination similar to that required before the County Superintendent in other cases.

SUGGESTED FORM OF CERTIFICATE.

I hereby certify that I am well acquainted with ...., and know him [or her] to be a person of good moral character.

In case the School Superintendent is not able to make the above certificate himself, something like the following indorsement should be appended by the School Superintendent:

I am well acquainted with ...., who signs the above certificate, and believe him to be an entirely reliable man; and, so far as I know and believe, the above-named applicant is a person of good moral character.

ADDITIONAL INFORMATION.

Thorough Discipline will be enforced in every department of the University.

Experience has shown it to be very necessary that a perfect understanding should exist between the President and those with whom the students board, in respect to the habits and conduct of students at their rooms. This will, accordingly, be carefully attended to.

Physical Exercises will be had daily in all the departments. Dr. Lewis's System of Light Gymnastics is now thoroughly introduced, and the results are in the highest degree satisfactory.

Board can be obtained in good families for about $4.00 a week, exclusive of fuel, lights, and washing; when these are furnished, except washing, the charge is a little more.

The expense of board is reduced about one-half by boarding in clubs, and by self-boarding. Rooms can be secured, at reasonable rent, in the village.

The following may be considered a near approximation to the necessary Expenses for one year, exclusive of pocket-money, apparel, traveling, and board in vacations:

Board, 40 weeks, ...	from	$80.00	to	$160.00
Washing, ...	"	12.00	"	18.00
Books and Stationery, ...	"	5.00	"	10.00
Total, ...	"	$97.00	"	$188.00

Tuition is free.

Text-Books are furnished free of expense, but every student is required to make good all damages received by books while in his possession.

Students are advised to bring with them such books as they may have, but not to purchase others until they arrive at the University.

The Apparatus is excellent in quality, and sufficiently ample for ordinary purposes of illustration.

The Diploma of the University is conferred upon all those who creditably complete its full course of study and practice.

There are two Literary Societies, the Philadelphian and the Wrightonian, each of which has a well-selected library.

The Museum and Library of the Illinois Natural-History Society are located in the University building, to which the students of the University will have access, under suitable restrictions.

COURSE OF STUDY

FOR THE

ILLINOIS STATE MODEL SCHOOL.

HIGH-SCHOOL DEPARTMENT.

	FIRST TERM.		SECOND TERM.		THIRD TERM.	
	General Course.	Classical Course.	General Course.	Classical Course.	General Course.	Classical Course.

FOURTH YEAR.	Intellectu'l Philosophy, History of Civilization, Latin, French or German.	Greek, Classical Antiquities, Algebra reviewed, Latin.	Moral Philosophy, Chemistry, Latin, French, or German.	Greek, Classical Antiqnities, Geometry reviewed, Latin.	Constitutional Law, Zoölogy, Latin, French, or German.	Greek, Classic'l Antiq. and Rev. of Arith. and Eng. Gr'm., Latin.

MODEL SCHOOL.

COURSE OF STUDY, ETC.

The Model Department was established in order that there might be a school, exhibiting the best methods of teaching, discipline, and classification, which the Normal Students should visit, and in which they should take part as instructors. Every effort will be put forth to make this, as far as may be, a perfect school, conducted upon the best methods, and showing the most wholesome results.

It is intended that the course of study in its several departments shall embrace all that belongs to a thorough education, from the elements up to a preparation either for College or Business. For the lower classes, a system of Object Lessons has been prepared with the greatest care. The design of this is to awaken the perceptive faculties, and to form a habit of accurate observation. Children thus trained not only make more thorough scholars, but also more practical men and women.

The accompanying plan of study will give a general idea of the subjects to be pursued in the higher department, and of the time allotted to each. It will be observed that two distinct courses are arranged for the High School: one to prepare students for College, and the other for general Business. The two, however, are made to blend whenever practicable.

The only requisites for admission are a small tuition fee, and a good character. Pupils, on being examined, are classed according to their attainments.

Boys and girls from abroad may be confidently intrusted to the care of the Principals; and besides the monthly report of scholarship and deportment at school, which is to be sent to all parents, will be included, if desired, a careful statement of each pupil's general deportment, and of the manner of spending leisure hours.

Physical Exercises are daily practiced by the entire school, and the effect upon the health of the pupils is most excellent.

CALENDAR FOR 1866--'67.

The School Year of forty weeks is divided into Three Terms.

The First Term begins Monday, September 10th, and continues Fifteen Weeks. Semi-annual Meeting of the Board of Education, Wednesday, December 19th. Examination at close of Term.

VACATION OF ONE WEEK.

The Second Term begins Tuesday, January 1st, 1867, and continues Thirteen Weeks.

VACATION OF ONE WEEK.

The Third Term begins Monday, April 8th, and continues Twelve Weeks. Examination during the last Week of Term. Annual Meeting of the Board of Education, Wednesday, June 26th. Annual Meeting of the Illinois Natural-History Society, Wednesday, June 26th. Address before the Literary Societies, Wednesday Evening, June 26th. Commencement Exercises, Thursday, June 27th.

VACATION OF TEN WEEKS.

" LEVI T. REGAN.
" WILLIAM RUSSELL.

*The First Class of Pupil Teachers is composed of those who have taught four terms in the Model School, unless excused for some good reason; the Second Class, of such as have taught three terms; the Third, two terms; and the Fourth, one term.

FOURTH CLASS.

Miss MARIA S. ARMS.
Mrs. FANNIE E. BIRD.
Miss MINNIE L. BOYDEN.
" ELLA CLARK.
" ANNIE M. EDWARDS.
" CARA E. HIGBY.
" S. GRACE HURWOOD.
" ELIZABETH LITTLEFIELD.
" CAROLINE PUGH.
" SARAH H. TOMLINSON.
" MARY A. SEABURY.
Miss MARY JANE SMITH.
" MARY WINTERBOTHAM.
" MARY WRIGHT.

Mr. JOSEPH DOBBIN.
" GEORGE G. MANNING.
" DANIEL E. NEWCOMB.
" JAMES R. RICHARDSON.
" JOHN R. RIGHTSELL.
" HENRY H. SHELDON.
" THOMAS F. STEVENSON.

STUDENTS.

SENIOR CLASS.

Emily C. Chandler,	*Middleport, Iroquois.*
Emily H. Cotton,	*Griggsville, Pike.*
Nellie Forman,	*Normal, McLean.*
Mary W. French,	*Griggsville, Pike.*
Eurana G. Gorton,	*Rock Island, Rock Island.*
Mary R. Gorton,	" " " "
Mary Pennell,	*Granville, Putnam.*
Onias C. Barber,	*Richview, Washington.*
John R. Edwards,	*Normal, McLean.*
George E. Hinman,	*Granville, Putnam.*
Cyrus W. Hodgin,	*Richmond, Indiana.*
Frederic J. Seybold,	*Lasalle, Lasalle.*
James S. Stevenson,	*Sparta, Randolph.*

SENIORS, ... 13.

CLASSIFICATION.—The Senior Class includes those who graduated this year. The Middle Class includes undergraduates who have finished more than one year's study: Section A have accomplished more than two years' work; Section B, just two years'; and Section C, less than two. The Junior Class includes students who have done one year's work or less: Section A have done just one year's work; Section B, the work of two terms; and Section C, a less amount.

N. B. The name of no student appears in the Catalogue unless he has been in school at least four weeks, in the current year.

MIDDLE CLASS.

SECTION A.

Mary I Abraham,	*Elmwood, Peoria.*
Ruthie E. Barker,	*Elgin, Kane.*
Ann Eliza Bullock,	*Tonica, Lasalle.*
Lucy A. Green,	*Elizabeth, JoDaviess.*
Emma T. Robinson,	*Delavan, Logan.*
Clara E. Watts,	*Sandoval, Marion.*
Henry McCormick,	*Leroy, Boone.*
William A. McBane,	*Metropolis, Massac.*
William Pardee,	*Carlyle, Clinton.*

SECTION B.

Lydia A. Burson,	*Richmond, Indiana.*
Lucretia C. Davis,	*Greenbush, Warren.*
Etta S. Dunbar,	*Afton, DeKalb.*
Anna Gates,	*Freeport, Stephenson.*
Janette E. H. Gorham,	*Rockford, Winnebago.*
Cornelia Valentine,	*Richmond, Indiana.*
Stephen Bogardus,	*Bonus, Boone.*
Samuel Garman,	*West Point, Stephenson.*
George H. Kurtz,	*Oakland, Coles.*
Charles W. Moore,	*Normal, McLean.*
Gifford S. Robinson,	*Prairie Creek, Logan.*
William Russell,	*Webster, Indiana.*

SECTION C.

Caroline N. Bacon,	*Normal, McLean.*
Catherine Bass,	*Wilmington, Will.*
Annetta L. Benton,	*Sublette, Lee.*
Elizabeth C. Brown,	*Athens, Menard.*
Jemima S. Burson,	*Richmond, Indiana.*
Mary J. Childs,	*Secor, Woodford.*
Mary E. Collom,	*Charleston, Coles.*
S. Grace Hurwood,	*Council Hill, JoDaviess.*
Mary Joder,	*Bloomington, McLean.*

Mary F. Kelsey,	*Mound City, Pulaski.*
Lucia Kingsley,	*Tonica, Lasalle.*
Martha Lemen,	*De Witt, De Witt.*
Elizabeth Littlefield,	*Beardstown, Cass.*
Jane E. Pennell,	*Granville, Putnam.*
Mary A. Pike,	*Bloomington, McLean.*
Mary J. Smith,	*Clinton, De Witt.*
Elma Valentine,	*Richmond, Indiana.*
Helen M. Wadleigh,	*Rutland, Lasalle.*
S. Elizabeth Winters,	*Morris, Grundy.*
Sarah J. Young,	*Normal, McLean.*

Francis A. Belford,	*Winchester, Scott.*
Joseph Dobbin,	*Whitehall, Greene.*
Lewis Goodrich,	*Lanark, Carroll.*
James W. Hayes,	*Urbana, Champaign.*
Charles Howard,	*Peru, Lasalle,*
Richard A. Huxtable.	*Minonk, Woodford.*
Isaac F. Kleckner,	*Rock Grove, Stephenson.*
Thomas McGrath,	*Broadwell, Logan.*
Daniel S. Miller,	*Polo, Ogle.*
Daniel E. Newcomb,	*Richmond, McHenry.*
Jason M. Randall,	*Centralia, Marion.*
Charles L. Raymond,	*Bloomington, McLean.*
Levi T. Regan,	*Lincoln, Logan.*
James R. Richardson,	*Salem, Marion.*
Jacob R. Rightsell,	*Mattoon, Coles.*
Thomas J. Scholes,	*Chillicothe, Peoria.*
John W. Smith,	*Pontiac, Livingston.*

MIDDLE CLASS, ... 58.

JUNIOR CLASS.

SECTION A.

Abby T. Alden,	*Jubilee, Peoria.*
Elizabeth S. Alden,	" "
Emily Alden,	" "
Maria S. Arms,	*South Pass, Union.*
Martha Bottsford,	*Lisbon, Kendall.*
M. L. Boyden,	*Champaign, Champaign.*
Isabella A. Braden,	*Normal, McLean.*
Dorothea J. Bryant,	*Bloomington, McLean.*
Alice C. Chase,	*Valley, Stark.*
Laura J. Fulwiler,	*Lexington, McLean.*
Clara S. Gaston,	*ElPaso, Woodford.*
Sophronia I. Hanna,	*Normal, McLean.*
Emma A. Howard,	*Rock Island, Rock Island.*
Julia E. Kennedy,	*Tamaroa, Perry.*
Maria L. Kimberly,	*Addison, DuPage.*
Mary C. Lyon,	*Akron, Peoria.*
Margaret Means,	*Effingham, Effingham.*

COURSE OF STUDY.

The Divisions, I, II, III, etc., in the foregoing Table, are made with reference rather to the studies in charge of different teachers than to a strictly logical grouping of subjects. The annexed SYLLABUS is intended as a Key to the Table.

DIVISION I.

THEORY AND ART OF TEACHING. *Third Term.* (1.) Organization of Schools, and the Principles involved in it. Objects of School, and Nature of Education. Classification: On what basis should it be made? How large should classes be? Programme of Daily Exercises: How should it be adjusted? Should every study have the same time for recitation with every other? Why? Usefulness of such a programme. (2.) Objects to be aimed at in Recitation: How may the teacher promote the habit of Industry in his pupils? Correct Habits of Study? A correct Use of Language? Honesty? Kindness and Good Manners? The kind of Questions that should be employed in recitation. (3.) The Order, in time, of the Development of the Mental Faculties, and the Exercises best adapted to promote such development. (4.) Education of the Senses: Possibility of such culture. The Use to be made of Colors, Forms, Vocal Analysis, Reading, Music, in educating the Senses. The School Studies best adapted to the training of the Senses. (5.) Education of the Memory: Law of its Culture. Closeness of Attention. Association. Reviews. Practical Use of Facts remembered. Accuracy of Statement. Studies best adapted to this culture. (6.) Education of the Reasoning Power: How to use the ordinary School Studies in developing this power,—History, Reading, Grammar, Arithmetic, the Natural Sciences. (7.) Education of the Imagination: Importance of such culture,—Æsthetically, Intellectually, Morally. Means of this culture,—Study of Nature; Study of the Classic Models in Literature; Study of Works of Art. (8.) Education of the Will: Directions in which it should be strengthened. The training required for a person of Feeble Will. How to use the circumstances of a pupil in school in such a way as to strengthen his persistency in carrying out Right Purposes. (9.) Necessity of making Education Universal: The Value of Mind. The Good of Society demands that all should be educated. Influence of Education upon Crime. Social Benefits resulting from Education.

METAPHYSICS. *Fourth Term.* Mental Philosophy precedes and is made the basis of instruction in the Theory and Art of Teaching. It comprises—(1.) An Explication of Terms. (2.) A general inquiry into the Nature of Mind: What is it? What are its Facts, Laws, and Results? The facts and laws of Knowl-

edge, Feeling, and Exertion? (3.) A more particular study of Consciousness, Perception, Memory, Imagination, and the Reflective and Regulative Powers. (4.) The Feelings. Theory of Pleasure and Pain.

History of Education. *Seventh Term.* A History of the Culture of different Nations, from the earliest times down to the present; also, the Biography of Eminent Educators in all countries and times.

Philosophy of Education and Object Lessons. *Seventh Term.* Oral Discussions and Themes.

Practical Teaching in Model School is required for Four Terms, under the Supervision of the Faculty.

DIVISION II.

Reading. *First and Second Terms.* Analysis of Words according to their Elementary Sounds. Articulation and Pronunciation. Compass and Flexibility of Voice. Analysis of Words according to their Derivation and Formation. Practice in Elocution.

Grammar. *Second Term.* Etymology during the first half of the term: Aim to teach the office of each part of speech in the Construction of Sentences. Critical Parsing. During the last half of the term, Construct, Analyze, and Parse, sentences of various kinds. Daily exercise throughout the term in the Correction of False Syntax.

Third Term. Analysis and Construction of Sentences continued. Rules of Syntax. Capitalization. Consideration of Abridged Propositions and Idiomatic Forms and Constructions. Daily exercise in the Correction of False Syntax.

Rhetoric. *Fifth Term.* Formation of the English Language. Literary Taste. Figurative Language. Style, and its varieties. Punctuation. Composition. Analysis and Amplification of subjects.

Literary Criticism. *Sixth Term.* Examine the style of the best English Authors of different periods. Study particularly the style of Milton, Addison, Goldsmith, etc. Blair's Rhetoric. Compositions during the term.

Eighth Term. History of English Literature. Rise and Development, in England and America, of Poetry, History, Romance, the Essay, Oratory, and Metaphysics. Principal Authors in each department. Newspapers, Reviews, and Magazines. English Literature compared with that of other nations. Orations and Essays written weekly, and delivered or read in the presence of all the students.

DIVISION III.

Arithmetic. *First Term.* The Decimal System, including Decimal Fractions, so called. Factoring, and its application to Common Multiples and Divisors. Fractions. Compound Numbers.

Second Term. Ratio and Proportion. Percentage, with its application to Loss and Gain, Commission, Insurance, etc. Percentage with time, including

Interest, Discount, Partnership, and Equation of Payments. Exchange (Inland and Foreign). Extraction of Second and Third Roots of numbers. Arabic method of Notation, using bases other than 10: applied particularly to Duodecimals.

Algebra. *Fourth Term.* Algebraic Notation. Factoring, with application to Divisors and Multiples. Fractions. Equations of First Degree. Extraction of the Roots of Algebraic Quantities. Rules deduced for the extraction of the Roots of Numbers. Radicals.

Fourth Term (Optional). Equations of Second Degree. Ratio and Proportion. Series: including the Progressions, Binomial Expansion, Permutation, Undetermined Coëfficients, Methods of Interpolation, and the Methods of Summing Special Forms; Piling of Balls and Shells. Logarithms, with Methods of Computing the Tables. Exponential Equations, with Position. Interest and Annuities.

Geometry. *Fifth Term.* Straight Line, and Surfaces bounded by Straight Lines. The Circle. Extra Theorems and Problems given for demonstration and solution.

Sixth Term Solids bounded by Planes. The Cylinder. The Cone. Surface and Solidity of Sphere. Plane Trigonometry, with its application to Land-Surveying. Leveling. Variation of Magnetic Needle.

Eighth and Ninth Terms (Optional). Equations of Point, Right Lines, and Circle. Equations of Point, Right Lines, and Plane in Sphere. Equations of Cylinder and Cone. General Equation of Conic Section referred to its own Plane. General Equation of Second Degree between two Variables. Loci. Surfaces of Revolution. Differential Calculus. Integral Calculus.

Physics. *Seventh Term.* Laws of Motion and Mechanics. Hydrostatics and Hydraulics. Pneumatics. Optics. Electricity and Magnetism.

DIVISION IV.

Geography. *First Term.* (1.) General Principles of Geography. Execution of Maps, and Outline of South America, 15 lessons; Andes Mountains, and countries containing them, 13 lessons; remaining countries of South America, 5 lessons; Cities of South America, 5 lessons: Review, 5 lessons. Total for South America, 43 lessons. (2.) Outline and Map of North America, 5 lessons; Russian and British America, 5 lessons; New England and New York, 12 lessons. Astronomical Geography, Latitude and Longitude, Day and Night, the Seasons, etc., 5 lessons. Review, 5 lessons.

Second Term. (1.) Remaining States and Territories of the United States, 22 lessons; Mexico, Central America, etc., 5 lessons; Review, 3 lessons. Total for North America, 52 lessons. (2.) Outline and Map of Europe, 5 lessons; Mountains and Rivers of the Continent, 5 lessons; Rapid Glance at the Countries of the Continent, 10 lessons; More thorough study of Britain as a model, 10 lessons; Review, 5 lessons. Total for Europe, 35 lessons.

Sixth Term. (1.) Outline and Map of Asia, 5 lessons; Mountains and Rivers of Asia, 5 lessons; Countries and Cities, 10 lessons. Total for Asia, 20 lessons. (2.) Physical Geography. Review of the Earth's Form, with a sketch of the Theory of its Origin, 10 lessons; Physical Life of the Earth, Temperature, Atmospheric and Marine Currents, Rains, and the Effects of Climatic Conditions

on Vegetable and Animal Life, 12 lessons. Historical View of the Earth: the Relations of its Forms and Physical Life to the Development of the Human Race, 8 lessons; Review, 10 lessons. Total for Physical Geography, 40 lessons.

United States History. *Third Term.* Voyages, Discoveries, and Indian Tribes, 10 lessons; Colonial History, 15 lessons; French War and Revolution, 20 lessons; Subsequent History, with a special study of Illinois, 15 lessons; Review, 15 lessons. Text-Book —Willson.

Ancient History. *Fourth Term. One Term* (15 *weeks*); 65 *Lessons.* Early Asiatic Nations, 8 lessons; Grecian History, 12 lessons; Roman History, 15 lessons; Most prominent Events of the Middle Ages, 10 lessons; Britons, 5 lessons; Review, 15 lessons. Text-Book —Weber.

Astronomy. *Eighth Term.* Definitions, with Oral Lessons and Exercises, 5 lessons; Constellations, with Maps of the Heavens, 15 lessons; Refraction, Parallax, Time, the Seasons, Motions, Distances and Orbits of Planets, 15 lessons; General Description of the Solar System, 15 lessons; Eclipses and Tides, 5 lessons; Review, 10 lessons. Total, 65 lessons. Text-Books — Robinson's and Burritt's.

DIVISION V.

Chemistry. *Fifth Term.* Names and Properties of Elements; Symbols; Formulæ; Chemical Affinity, etc. Laws of Definite Proportions. Behavior of Chemical Bodies toward each other. Changes of Form, Color, Properties. Air, Water, Light,—their relations to Organic Life. Organic Chemistry. Food of Plants. Outline of Chemical Analysis, qualitative and quantitative. Philosophy of Chemistry.

Botany. *Sixth Term.* Structure of Plants, Mode of Growth, etc. Their relations to each other. Classification. Systems of Analysis, Natural and Linnæan. Written Analysis of at least seventy-five species of native plants by the Natural system.

Anatomy and Physiology. *Seventh Term.* General View of the Structure and Functions of the Human Body. Food, and the Digestive Process. The Blood,—its Chemical Composition and Vital Properties. Respiration and Nutrition. The Nervous System. The Laws of Hygiene.

Zoölogy. *Ninth Term* (Optional). The Sphere and Fundamental Principles of Zoölogy. General Properties of Organized Bodies. Functions and Organs of Animal Life. Intelligence and Instinct. Metamorphoses of Animals. Geographical Distribution of Animals.

The large and splendid Museum of Natural History is now abundantly provided for. Professor Powell, the Curator, is now conducting an expedition to the Rocky Mountains, from which large additions are expected.

ADMISSION.

This Institution is intended for the training of young persons of both sexes for teachers in the Schools of Illinois.

Students seeking admission to the University should make application to the School Superintendent of the county in which they reside, and are required—

(1.) To be, if males, not less than 17, and if females, not less than 16, years of age.

(2.) To produce a certificate of good moral character, signed by some responsible person.

(3.) To sign a declaration of their intention to devote themselves to School-teaching in this State, in form as follows:

"I hereby declare my intention to become a teacher in the schools of this State; and agree that, for three years after leaving the University, I will report in writing to the Principal thereof, in June and December of each year, where I have been, and in what employment."

(4.) To pass a satisfactory examination, before the proper officers (County School Superintendents), in Reading, Spelling, Writing, Arithmetic, Geography, and the elements of English Grammar.

EXTRACT FROM THE NORMAL-UNIVERSITY ACT.

SEC. 7. Each County within the State shall be entitled to gratuitous instruction for one pupil in said Normal University, and each Representative District shall be entitled to gratuitous instruction for a number of pupils equal to the number of representatives in said district, to be chosen in the following manner: The School Superintendent in each county shall receive and register the names of all applicants for admission to said Normal University, and shall present the same to the County Court, or in counties acting under township organization to the Board of Supervisors; which said County Court or Board of Supervisors, as the case may be, shall, together with the School Superintendent, examine the applicants so presented, in such manner as the Board of Education may direct, and from the number of such as shall be found to possess the requisite qualifications such pupils shall be selected by lot; and in representative districts composed of more than one county, the School Superintendent and County Judge, or the School Superintendent and Chairman of the Board of Supervisors in counties acting under township organization, as the case may be, of the several counties composing such representative district,

shall meet at the Clerk's office of the County Court of the oldest county, and from the applicants so presented to the County Court or Board of Supervisors of the several counties represented, and found to possess the requisite qualifications, shall select by lot the number of pupils to which said district is entitled. The Board of Education shall have discretionary power, if any candidate does not sign and file with the Secretary of the Board a declaration that he or she will teach in the public schools within this State, in case that engagement can be secured by reasonable efforts, to require such candidate to provide for the payment of such fees for tuition as the Board may prescribe.

(AMENDED FEBRUARY, 1861.)

SEC. 4. Each County in this State shall, hereafter, be entitled to gratuitous instruction for two pupils in said University, to be selected as provided in Section Seven of the Act to which this is an amendment.

If any County or Representative District neglects to make appointments, the President of the University is, by a resolution adopted by the Board of Education, authorized to fill the vacancy by appointing any person of proper age and qualification. Every such person must pass, before the President, an examination similar to that required, before the County Superintendent in other cases.

SUGGESTED FORM OF CERTIFICATE.

I hereby certify that I am well acquainted with ...., and know him [or her] to be a person of good moral character.

In case the School Superintendent is not able to make the above certificate himself, something like the following indorsement should be appended by the School Superintendent:

I am well acquainted with ...., who signs the above certificate, and believe him to be an entirely reliable man; and, so far as I know and believe, the above-named applicant is a person of good moral character.

ADDITIONAL INFORMATION.

Thorough Discipline will be enforced in every department of the University.

Experience has shown it to be very necessary that a perfect understanding should exist between the President and those with whom the students board, in respect to the habits and conduct of students at their rooms. This will, accordingly, be carefully attended to.

Physical Exercises will be had daily in all the departments. Dr. Lewis's System of Light Gymnastics is now thoroughly introduced, and the results are in the highest degree satisfactory.

Board can be obtained in good families for about $4.00 a week, exclusive of fuel, lights, and washing; when these are furnished, except washing, the charge is a little more.

The expense of board is reduced about one-half by boarding in clubs, and by self-boarding. Rooms can be secured, at reasonable rent, in the village.

The following may be considered a near approximation to the necessary Expenses for one year, exclusive of pocket-money, apparel, traveling, and board in vacations:

Board, 40 weeks,	from	$80.00	to	$160.00
Washing,	"	12.00	"	18.00
Books and Stationery,	"	5.00	"	10.00
Total,		$97.00		$188.00

Tuition is free.

Text-Books are furnished free of expense, but every student is required to make good all damages received by books while in his possession.

Students are advised to bring with them such books as they may have, but not to purchase others until they arrive at the University.

The Apparatus is excellent in quality, and sufficiently ample for ordinary purposes of illustration.

The Diploma of the University is conferred upon all those who creditably complete its full course of study and practice.

There are two Literary Societies, the Philadelphian and Wrightonian, each of which has a well-selected library.

The Museum and Library of the Illinois Natural-History Society are located in the University building, to which the students of the University will have access, under suitable restrictions.

COURSE OF STUDY

FOR THE

ILLINOIS STATE MODEL SCHOOL.

HIGH-SCHOOL DEPARTMENT.

	FIRST TERM.		SECOND TERM.		THIRD TERM.	
	General Course.	Classical Course.	General Course.	Classical Course.	General Course.	Classical Course.
FIRST YEAR.	Algebra, Geography of the U.S. and Europe, Latin or German.	Algebra, Geography of the U. S. and Europe, Latin.	Algebra. English Grammar and Analysis, Latin or German.	Algebra, English Grammar and Analysis, Latin.	Algebra, Physiology, Latin or German.	Algebra, Physiology, Latin.

FOURTH YEAR.	Intellectu'l Philosophy, History of Civilization, Latin, French or German.	Greek, Classical Antiquities, Algebra reviewed, Latin.	Moral Philosophy, Chemistry, Latin, French, or German.	Greek. Classical Antiquities, Geometry reviewed, Latin.	Constitutional Law, Zoölogy, Latin, French, or German.	Greek, Classic'l Antiq. and Rev. of Arith. and Eng. Gr'm., Latin.

MODEL SCHOOL.

COURSE OF STUDY, ETC.

The Model Department was established in order that there might be a school, exhibiting the best methods of teaching, discipline, and classification, which the Normal Students should visit, and in which they should take part as instructors. Every effort will be put forth to make this, as far as may be, a perfect school, conducted upon the best methods, and showing the most wholesome results.

It is intended that the course of study in its several departments shall embrace all that belongs to a thorough education, from the elements up to a preparation either for College or Business. For the lower classes, a system of Object Lessons has been prepared with the greatest care. The design of this is to awaken the perceptive faculties, and to form a habit of accurate observation. Children thus trained not only make more thorough scholars, but also more practical men and women.

It is divided into four departments,—the High, Grammar, Intermediate and Primary Schools. Each of these is under the direct charge of an accomplished and efficient Principal, who is assisted in part by permanent teachers, and in part by the pupil teachers from the Normal School. Their work is subjected to the most rigorous supervision, and suggestions are constantly made for their guidance and improvement.

The Classical Course is very thorough and is much more extended than that of some colleges. Our young men enter Harvard and Yale without conditions.

The accompanying plan of study will give a general idea of the subjects to be pursued in the High School, and of the time allotted to each. It will be observed that two distinct courses are arranged for the High School: one to prepare students for College, and the other for general Business. The two, however, are made to blend whenever practicable.

The only requisites for admission are a small tuition fee, and a good character. Pupils, on being examined, are classed according to their attainments.

Boys and girls from abroad may be confidently intrusted to the care of the Principals; and besides the monthly report of scholarship and deportment at school, which is to be sent to all parents, will be included, if desired, a careful statement of each pupil's general deportment, and of the manner of spending leisure hours.

Physical Exercises are daily practiced by the entire school, and the effect upon the health of the pupils is most excellent.

CALENDAR FOR 1867--'68.

The School Year of forty weeks is divided into Three Terms.

The First Term begins Monday, September 9th, and continues Fifteen Weeks. Semi-annual Meeting of the Board of Education, Wednesday, December 18th. Examination at close of Term.

VACATION OF ONE WEEK.

The Second Term begins Monday, December 30th, 1867, and continues Thirteen weeks.

VACATION OF ONE WEEK.

The Third Term begins Monday, April 7th, and continues Twelve Weeks. Examination during the last Week of Term. Annual Meeting of the Board of Education, Wednesday, June 25th. Annual Meeting of the Illinois Natural-History Society, Wednesday, June 25th. Address before the Literary Societies, Wednesday Evening, June 25th. Commencement Exercises, Thursday, June 26th.

VACATION OF TEN WEEKS.

SENIORS. . . . . 19.

CLASSIFICATION.—The Senior Class includes those who are graduated this year. The Middle Class includes undergraduates who have finished more than one year's study: Section A have accomplished more than two years' work; Section B, just two years'; and Section C, less than two. The Junior Class includes students who have done one year's work or less: Section A have done just one year's work; Section B, the work of two terms; and Section C, a less amount.

N. B. The name of no student appears in the Catalogue unless he has been in school at least four weeks, in the Current year.

MIDDLE CLASS.

COURSE OF STUDY.

The Divisions, I, II, III, etc., in the foregoing Table, are made with reference rather to the studies in charge of different teachers than to a strictly logical grouping of subjects. The annexed SYLLABUS is intended as a Key to the Table.

DIVISION I.

THEORY AND ART OF TEACHING. *Third Term.* (1.) Organization of Schools, and the Principles involved in it. Objects of School, and Nature of Education. Classification: On what basis should it be made? How large should classes be? Programme of Daily Exercises: How should it be adjusted? Should every study have the same time for recitation with every other? Why? Usefulness of such a programme. (2.) Objects to be aimed at in Recitation: How may the teacher promote the habit of Industry in his pupils? Correct Habits of Study? A correct use of Language? Honesty? Kindness and Good Manners? The kind of Questions that should be employed in recitation. (3.) The Order, in time, of the Development of the Mental Faculties, and the Exercises best adapted to promote such development. (4.) Education of the Senses: Possibility of such culture. The Use to be made of Colors, Forms, Vocal Analysis, Reading, Music, in educating the Senses. The School Studies best adapted to the training of the Senses. (5.) Education of the Memory: Law of its Culture. Closeness of Attention. Association. Reviews. Practical use of Facts remembered. Accuracy of Statement. Studies best adapted to this culture. (6.) Education of the Reasoning Power: How to use the ordinary School Studies in developing this power,—History, Reading, Grammar, Arithmetic, the Natural Sciences. (7.) Education of the Imagination: Importance of such culture,—Æsthetically, Intellectually, Morally. Means of this culture,—Study of Nature: Study of the Classic Models in Literature; Study of Works of Art. (8.) Education of the Will: Directions in which it should be strengthened. The training required for a person of Feeble Will. How to use the circumstances of a pupil in school in such a way as to strengthen his persistency in carrying out Right Purposes. (9.) Necessity of making Education Universal: The Value of Mind. The Good of Society demands that all should be educated. Influence of Education upon Crime. Social Benefits resulting from Education.

METAPHYSICS. *Fourth Term.* Mental Philosophy precedes and is made the basis of instruction in the Theory and Art of Teaching. It comprises—(1.) An Explication of Terms. (2.) A general inquiry into the Nature of Mind: What is it? What are its Facts, Laws, and Results? The facts are laws of Knowledge, Feeling, and Exertion? (3.) A more particular study of Consciousness, Perception, Memory, Imagination, and the Reflective and Regulative Powers. (4.) The Feelings. Theory of Pleasure and Pain.

HISTORY OF EDUCATION. *Seventh Term.* A History of the Culture of different Nations, from the earliest times down to the present; also the Biography of Eminent Educators in all countries and times.

PHILOSOPHY OF EDUCATION AND OBJECT LESSONS. *Seventh Term.* Oral Discussions and Themes.

PRACTICAL TEACHING IN MODEL SCHOOL is required for Four Terms, under the Supervision of the Faculty.

DIVISION II.

READING. *First and Second Terms.* Analysis of words according to their Elementary Sounds. Articulation and Pronunciation. Compass and Flexibility of Voice. Analysis of Words according to their Derivation and Formation. Practice in Elocution.

GRAMMAR. *Second Term.* Etymology during the first half of the term: Aim to teach the office of each part of speech in the Construction of Sentences. Critical Parsing. During the last half of the term, Construct, Analyze, and Parse, sentences of various kinds. Daily exercises throughout the term in the Correction of False Syntax.

Third Term. Analysis and Construction of Sentences continued. Rules of Syntax. Capitalization. Consideration of Abridged Propositions and Idiomatic Forms and Constructions. Daily exercise in the correction of False Syntax.

RHETORIC. *Fifth Term.* Formation of the English Language. Literary Taste. Figurative Language. Style, and its varieties. Punctuation. Composition. Analysis and Amplification of subjects.

LITERARY CRITICISM. *Sixth Term.* Examine the style of the best English Authors of different periods. Study particularly the style of Milton, Addison, Goldsmith, etc. Blair's Rhetoric. Compositions during the term.

Eighth Term. History of English Literature. Rise and Development, in England and America, of Poetry, History, Romance, the Essay, Oratory, and Metaphysics. Principal Authors in each department. Newspapers, Reviews, and Magazines. English Literature compared with that of other nations. Orations and Essays written weekly, and delivered or read in the presence of all the students.

DIVISION III.

ARITHMETIC. *First Term.* The Decimal System, including Decimal Fractions, so called. Factoring, and its application to Common Multiples and Divisors. Fractions. Compound Numbers.

Second Term. Ratio and Proportion. Percentage, with its application to Loss and Gain, Commission, Insurance, etc. Percentage with time, including Interest, Discount, Partnership, and Equation of Payments. Exchange, (Inland and Foreign). Extraction of Second and Third Roots of numbers. Arabic method of Notation, using bases other than 10; applied particularly to Duodecimals.

ALGEBRA. *Fourth Term.* Algebraic Notation. Factoring, with application to Divisors and Multiples. Fractions. Equations of First Degree. Extraction of the Roots of Algebraic Quantities. Rules deduced for the extraction of the Roots of Numbers. Radicals.

Fourth Term (Optional). Equations of Second Degree. Ratio and Proportion. Series: including the Progressions, Binomial Expansion, Permutation, Undetermined Coefficients, Methods of Interpolations, and the Methods of Summing Special Forms; Piling of Balls and Shells. Logarithms, with Methods of Computing the Tables. Exponential Equations, with Position. Interest and Annuities.

GEOMETRY. *Fifth Term.* Straight Line, and Surfaces bounded by Straight Lines. The Circle. Extra Theorems and Problems given for demonstration and solution.

Sixth Term. Solids bounded by Planes. The Cylinder. The Cone. Surface and Solidity of Sphere. Plane Trigonometry, with its application to Land Surveying. Leveling. Variation of Magnetic Needle.

Eighth and Ninth Terms (Optional). Equation of Point, Right Lines, and Circle. Equation of Point, Right Lines, and Plane in Sphere. Equations of Cylinder and Cone.

General Equation of Conic Section referred to its own Plane. General Equation of Second Degree between two Variables. Loci. Surfaces of Revolution. Differential Calculus. Integral Calculus.

PHYSICS. *Seventh Term.* Laws of Motion and Mechanics. Hydrostatics and Hydraulics. Pneumatics. Optics. Electricity and Magnetism.

DIVISION IV.

GEOGRAPHY. *First Term.* (1.) General Principles of Geography. Execution of Maps, and Outline of South America, 15 lessons; Andes Mountains, and countries containing them, 13 lessons; remaining countries of South America, 5 lessons; Cities of South America, 5 lessons; Review, 5 lessons. Total for South America, 43 lessons. (2.) Outline and Map of North America, 5 lessons; Russian and British America, 5 lessons; New England and New York, 12 lessons. Astronomical Geography, Latitude and Longitude, Day and Night, the Seasons, etc., 5 lessons. Review, 5 lessons.

Second Term. (1.) Remaining States and Territories of the United States, 22 lessons; Mexico, Central America, etc., 5 lessons; Review, 3 lessons. Total for North America, 52 lessons. (2). Outline and Map of Europe, 5 lessons; Mountains and Rivers of the Continent, 5 lessons; Rapid Glance at the Countries of the Continent, 10 lessons; More thorough study of Britain as a model, 10 lessons; Review, 5 lessons. Total for Europe, 35 lessons.

Sixth Term. (1.) Outline and Map of Asia, 5 lessons; Mountains and Rivers of Asia, 5 lessons; Countries and Cities, 10 lessons. Total for Asia, 20 lessons. (2.) PHYSICAL GEOGRAPHY. Review of the Earth's Form, with a sketch of the Theory of its Origin, 10 lessons; Physical Life of the Earth, Temperature, Atmospheric and Marine Currents, Rains, and the Effects of Climatic Conditions on Vegetable and Animal Life, 12 lessons. Historical View of the Earth; the Relations of its Forms and Physical Life to the Development of the Human Race, 8 lessons; Review, 10 lessons. Total for Physical Geography, 40 lessons.

UNITED STATES HISTORY. *Third Term.* Voyages, Discoveries, and Indian Tribes, 10 lessons; Colonial History, 15 lessons; French War and Revolution, 20 lessons; Subsequent History, with a special study of Illinois, 15 lessons; Review, 15 lessons. Text-Book—Willson.

ANCIENT HISTORY. *Fourth Term. One Term* (15 *weeks*); 65 *Lessons.* Early Asiatic Nations, 8 lessons; Grecian History, 12 lessons; Roman History, 15 lessons; Most prominent Events of the Middle Ages, 10 lessons; Britons, 5 lessons; Review, 15 lessons. Text-Book—Weber.

ASTRONOMY. *Eighth Term.* Definitions, with Oral Lessons and Exercises, 5 lessons; Constellations, with Maps of the Heavens, 15; Refraction, Parallax, Time, the Seasons, Motions, Distances and Orbits of Planets, 15 lessons; General Description of the Solar System, 15 lessons; Eclipses and Tides, 5 lessons; Review, 10 lessons. Total, 65 lessons. Text-Books—Robinson's and Burritt's.

DIVISION V.

CHEMISTRY. *Fifth Term.* Names and Properties of Elements; Symbols; Formulæ; Chemical Affinity, etc. Laws of Definite Proportions. Behavior of Chemical Bodies towards each other. Changes of Form, Color, Properties. Air, Water, Light,—their relations to Organic Life. Organic Chemistry. Food of Plants. Outline of Chemical Analysis, qualitative and quantitative. Philosophy of Chemistry.

BOTANY. *Sixth Term.* Structure of Plants, Mode of Growth, etc. Their relations to each other. Classification. Systems of Analysis, Natural and Linnæan. Written Analysis of at least seventy-five species of native plants by the Natural system.

ANATOMY AND PHYSIOLOGY. *Seventh Term.* General View of the Structure and Functions of the Human Body. Food, and the Digestive Process. The Blood,—its Chemical Composition and Vital Properties. Respiration and Nutrition. The Nervous System. The Laws of Hygiene.

ZOOLOGY. *Ninth Term* (Optional). The Sphere and Fundamental Principles of Zoology. General Properties of Organized Bodies. Functions and Organs of Animal Life. Intelligence and Instinct. Metamorphoses of Animals. Geographical Distribution of Animals.

The large and splendid Museum of Natural History is now abundantly provided for. Professor Powell, the Curator, is now conducting an expedition to the Rocky Mountains, from which large additions are expected.

ADMISSION.

This Institution is intended for the training of young persons of both sexes for teachers in the Schools of Illinois.

Students seeking admission to the University should make application to the School Superintendent of the county in which they reside, and are required—

(1.) To be, if males, not less than 17, and if females, not less than 16, years of age.

(2.) To produce a certificate of good moral character, signed by some responsible person.

(3.) To sign a declaration of their intention to devote themselves to School-teaching in this State, in form as follows:

"I hereby declare my intention to become a teacher in the schools of this State; and agree that, for three years after leaving the University, I will report in writing to the Principal thereof, in June and December of each year, where I have been, and in what employment."

(4.) To pass a satisfactory examination, before the proper officers (County School Superintendents), in Reading, Spelling, Writing, Arithmetic, Geography, and the elements of English Grammar.

EXTRACT FROM THE NORMAL-UNIVERSITY ACT.

SEC. 7. Each County within the State shall be entitled to gratuitous instruction for one pupil in said Normal University, and each Representative District shall be entitled to gratuitous instruction for a number of pupils equal to the number of representatives in said district, to be chosen in the following manner: The School Superintendent in each county shall receive and register the names of all applicants for admission to said Normal University, and shall present the same to the County Court, or in counties acting under township organization to the Board of Supervisors; which said County Court or Board of Supervisors, as the case may be, shall, together with the School Superintendent, examine the applicants so presented, in such manner as the Board of Education may direct, and from the number of such as shall be found to possess the requisite qualifications such pupil shall be selected by lot; and in representative districts composed of more than one county, the School Superintendent and County Judge, or the School Superintendent and Chairman of the Board of Supervisors in counties acting under township organization, as the case may be, of the several counties composing such representative district, shall meet at the Clerk's office of the County Court of the oldest county, and from the applicants so presented to the County Court or Board of Supervisors of the several counties represented, and found to possess the requisite qualifications, shall select by lot the number of pupils to which said district is entitled. The Board of Education shall have discretionary power, if any candidate does not sign and file with the

Secretary of the Board a declaration that he or she will teach in the public schools within this State, in case that engagement can be secured by reasonable efforts, to require such candidate to provide for the payment of such fees for tuition as the Board may prescribe.

(AMENDED FEBRUARY, 1861.)

SEC. 4. Each County in this State shall, hereafter, be entitled to gratuitous instruction for two pupils in said University, to be selected as provided in Section Seven of the Act to which this is an amendment.

If any County or Representative District neglects to make appointments, the President of the University is, by a resolution adopted by the Board of Education, authorized to fill the vacancy by appointing any person of proper age and qualification. Every such person must pass, before the President, an examination similar to that required before the County Superintendent in other cases.

SUGGESTED FORM OF CERTIFICATE.

I hereby certify that I am well acquainted with ...., and know him [or her] to be a person of good moral character.

In case the School Superintendent is not able to make the above certificate himself, something like the following endorsement should be appended by the School Superintendent:

I am well acquainted with ...., who signs the above certificate and believe him to be an entirely reliable man; and, so far as I know and believe, the above-named applicant is a person of good moral character.

ADDITIONAL INFORMATION.

Thorough DISCIPLINE will be enforced in every department of the University.

Experience has shown it to be very necessary that a perfect understanding should exist between the President and those with whom the students board, in respect to the habits and conduct of students at their rooms. This will, accordingly, be carefully attended to.

PHYSICAL EXERCISES will be had daily in all the departments. Dr. Lewis's System of Light Gymnastics is now thoroughly introduced, and the results are in the highest degree satisfactory.

BOARD can be obtained in good families for about $4.00 a week, exclusive of fuel, lights, and washing; when these are furnished, except washing, the charge is a little more.

The expense of board is reduced about one-half by boarding in clubs, and by self-boarding. Rooms can be secured, at reasonable rent, in the village.

The following may be considered a near approximation to the necessary EXPENSES for one year, exclusive of pocket-money, apparel, traveling, and board in vacations:

Board, 40 weeks, ...	from	$80.00	to	$160.00
Washing, ...	"	15.00	"	30.00
Books and Stationery, ...	"	5.00	"	10.00
Total, ...		$100.00		$200.00

Tuition is free.

TEXT-BOOKS are furnished free of expense, but every student is required to make good all damages received by books while in his possession.

Students are advised to bring with them such books as they may have, but not to purchase others until they arrive at the University.

The APPARATUS is excellent in quality, and sufficiently ample for ordinary purposes of illustration.

The DIPLOMA of the University is conferred upon all those who creditably complete its full course of study and practice.

There are two LITERARY SOCIETIES, the Philadelphian and Wrightonian, each of which has a well-selected library.

The MUSEUM and LIBRARY of the Illinois Natural-History Society are located in the University building, to which the students of the University will have access, under suitable restrictions.

COURSE OF STUDY

FOR THE

ILLINOIS STATE MODEL SCHOOL.

HIGH-SCHOOL DEPARTMENT.

	FIRST TERM.		SECOND TERM.		THIRD TERM.	
	General Course.	Classical Course.	General Course.	Classical Course.	General Course.	Classical Course.
FIRST YEAR.	Algebra, Geog'phy of the U. S. and Europe, Latin or German.	Algebra, Geog'phy of the U. S. and Europe, Latin.	Algebra, English Grammar and Analysis, Latin or German.	Algebra, English Grammar and Analysis, Latin.	Algebra, Physiology, Latin or German.	Algebra, Physiology, Latin.
SECOND YEAR	Geometry, Natural Philosophy, Latin or German.	Geometry, Natural Philosophy, Latin.	Geometry, Physical Geography, Latin or German.	Geometry, Physical Geography, Latin.	Botany, Ancient History, Latin or German.	Botany, Ancient History, Latin.
THIRD YEAR.	Rhetoric, History of Rome, Latin, French or German.	Greek, History of Rome, Latin.	Astronomy, Hist. of Mod. Europe, Latin, French or German.	Greek, Hist. of Mod. Europe, Latin.	Book-Keeping, English Language & Literature, Lat., French or Ger.	Greek, English Language & Literature, Latin.

Greek, Classical Antiquities, Geometry Reviewed, Latin.	Constitutional Law. Zoology, Latin, French or German.	Greek, Classic'l Ant. & Rev. of Arith. & Eng. Gr., Latin.

MODEL SCHOOL.

COURSE OF STUDY, ETC.

THE MODEL DEPARTMENT was established in order that there might be a school, exhibiting the best methods of teaching, discipline, and classification, which the Normal Students should visit, and in which they should take part as instructors. Every effort will be put forth to make this as far as may be, a perfect school, conducted upon the best methods, and showing the most wholesome results.

It is intended that the course of study in its several departments shall embrace all that belongs to a thorough education, from the elements up to a preparation either for College or Business. For the lower classes, a system of Object Lessons has been prepared with the greatest care. The design of this is to awaken the perceptive faculties, and to form a habit of accurate observation. Children thus trained not only make more thorough scholars, but also more practical men and women.

It is divided into four departments,—the High, Grammar, Intermediate and Primary Schools. Each of these is under the direct charge of an accomplished and efficient Principal, who is assisted in part by permanent teachers, and in part by the pupil teachers from the Normal School. Their work is subjected to the most rigorous supervision, and suggestions are constantly made for their guidance and improvement.

The Classical Course is very thorough and is much more extended than that of some colleges. Our young men enter Harvard and Yale without conditions.

The accompanying plan of study will give a general idea of the subjects to be pursued in the High School and the time allotted to each. It will be observed that two distinct courses are arranged for the High School: one to prepare students for College and the other for general Business. The two, however, are made to blend whenever practicable.

The only requisites for admission are a small tuition fee, and a good character. Pupils, on being examined, are classed according to their attainments.

Boys and girls from abroad may be confidently intrusted to the care of the Principals; and besides the monthly report of scholarship and deportment at school, which is to be sent to all parents, will be included, if desired, a careful statement of each pupil's general deportment, and of the manner of spending leisure hours.

Physical Exercises are daily practiced by the entire school, and the effect upon the health of the pupils is excellent.

CALENDAR FOR 1868--'69.

The SCHOOL Year of forty weeks is divided into Three Terms.

The FIRST TERM begins Monday, September 7th, and continues Fifteen Weeks. Semi-annual Meeting of the Board of Education, Wednesday, December 16th. Examination at close of Term.

VACATION OF ONE WEEK.

The SECOND TERM begins Monday, December 28th, 1868, and continues Thirteen weeks.

VACATION OF ONE WEEK.

The THIRD TERM begins Monday April 4th, and continues Twelve Weeks. Examination during the last Week of Term. Annual Meeting of the Board of Education, Wednesday, June 22d. Annual Meeting of the Illinois Natural-History Society, Wednesday, June 22d. Address before the Literary Societies. Wednesday Evening, June 22d. Commencement Exercises, Thursday, June 23d,

VACATION OF TEN WEEKS.

BOARD OF EDUCATION

OF THE

STATE OF ILLINOIS.

Hon. SAMUEL W. MOULTON, *Shelbyville*, President.

Hon. NEWTON BATEMAN, L L. D., *Springfield*, *ex officio* a member, and Secretary.

JOHN H. FOSTER, M. D., *Chicago.*

WALTER L. MAYO, Esq., *Albion.*

Hon. JESSE H. MOORE, *Decatur.*

THOMAS R. LEAL, Esq., *Urbana.*

HENRY WING, M. D., *Collinsville.*

BENAIAH G. ROOTS, Esq., *Tamaroa.*

ELIAS C. DUPUY, M. D., *Freeport.*

JESSE W. FELL, Esq., *Normal.*

Hon. WILLIAM H. GREEN, *Cairo.*

CALVIN GOUDY, M. D., *Taylorville.*

N. E. WORTHINGTON, Esq., *Peoria.*

WINFIELD S. COY, Esq., *Bristol.*

GEO. C CLARKE, Esq., *Chicago.*

C. W. HOLDER, Esq., *Bloomington*, Treasurer.

FACULTY.

RICHARD EDWARDS, L L. D., PRESIDENT,
Professor of Mental Science and Didactics.

EDWIN C. HEWETT, A. M., *Professor of History.*

JOSEPH A. SEWALL, M. D., *Professor of Natural Science.*

THOMAS METCALF, A. M., *Professor of Mathematics.*

ALBERT STETSON, A. M., *Professor of Language.*

MISS EMALINE DRYER,
Preceptress and Instructress in Grammar and Drawing.

JOHN W. POWELL, A. M.,
Professor of Geology, and Curator of Museum.

JOHN W. COOK, *Professor of Reading and Elocution.*

HENRY C. McCORMICK, *Professor of Geography.*

WILLIAM L. PILLSBURY, A. M., *Principal of High School.*

MRS. MARTHA D. L. HAYNIE, *Assistant in High School.*

JOSEPH CARTER, *Principal of Grammar School.*

MISS MARY PENNELL, *Assistant.*

MISS LUCIA KINGSLEY, *Principal of Intermediate and Primary School.*

PUPIL TEACHERS.*

FIRST CLASS.

Miss ALICE CHASE.
" BARBARA DENNING.
" EMMA HOWARD.
" MARIA L. KIMBERLY.
" MARY D. LeBARON.
" AGNES S. MICHAN.
" ADELLA NANCE.
" FANNIE SMITH.

Smith, John W.,	*Pontiac, Livingston*

SENIORS, ... 27.

CLASSIFICATION.—The Senior Class includes those who are graduated this year. The Middle Class includes undergraduates who have finished more than one year's study: Section A have accomplished more than two years, work; Section B just two years, and Section C. less than two. The Junior Class includes students who have done one year's work or less: Section A have done just one year's work; Section B the work of two terms; and Section C a less amount.

N. B.—The name of no student appears in the Catalogue unless he has been in school at least four weeks in the current year.

MIDDLE CLASS.

COURSE OF STUDY.

The divisions, I, II, III, etc., in the foregoing Table, are made with reference rather to the studies in charge of different teachers than to a strictly logical grouping of subjects. The annexed SYLLABUS is intended as a Key to the Table.

DIVISION I.

THEORY AND ART OF TEACHING. *Third Term.* (1.) Organization of Schools and the Principles involved in it. Objects of School, and Nature of Education. Classification: On what basis should it be made? How large should the classes be? Programme of Daily Exercises: How should it be adjusted? Should every study have the same time for recitation with every other? Why? Usefulness of such a programme. (2.) Objects to be aimed at in Recitation: How may the teacher promote the habits of Industry in his pupils? Correct Habits of Study? A correct use of Language? Honesty? Kindness and Good Manners? The kind of Questions that should be employed in recitation. (3.) The order, in time, of the Development of the Mental Faculties, and the Exercise best adapted to promote such development. (4.) Education of the senses: Possibility of such culture. The use to be made of Colors, Forms, Vocal Analysis, Reading, Music, in educating the Senses. The School Studies best adapted to the training of the Senses. (5.) Education of the Memory: Law of its Culture. Closeness of Attention. Association. Reviews. Practical use of Facts remembered. Accuracy of Statement. Studies best adapted to this culture. (6.) Education of the Reasoning Power: How to use the ordinary School Studies in developing this power—History, Reading, Grammar, Arithmetic, the Natural Sciences. (7.) Education of the Imagination: Importance of such culture—Æsthetically, Intellectually, Morally. Means of this culture—Study of Nature: Study of the Classic Models in Literature; study of Works of Art. (8.) Education of the Will. Directions in which it should be strengthened. The training required for a person of Feeble Will. How to use the circumstances of a pupil in school in such a way as to strengthen his persistency in carrying out Right Purposes. (9.) Necessity of making Education Universal: The Value of Mind. The good of Society demands that all should be educated. Influence of Education upon Crime. Social Benefits resulting from Education.

METAPHYSICS. *Fourth Term.* Mental Philosophy precedes and is made the basis of instruction in the Theory and Art of Teaching. It comprises—(1.) An Explication of Terms. (2.) A general inquiry into the Nature of Mind: What is it? What are its Facts, Laws and Results? The facts are laws of Knowledge, Feeling and Exertion. (3.) A more particular study of Consciousness, Perception, Memory, Imagination, and the Reflective and Regulative Powers. (4.) The feelings. Theory of Pleasure and Pain.

HISTORY OF EDUCATION. *Seventh Term.* A History of the Culture of different Nations from the earliest times down to the present; also the Biography of Eminent Educators in all countries and times.

PHILOSOPHY OF EDUCATION AND OBJECT LESSONS. *Seventh Term.* Oral Discussions and Themes.

PRACTICAL TEACHING IN MODEL SCHOOL is required for Four Terms, under the Supervision of the Faculty.

CONSTITUTION OF THE UNITED STATES, a thorough study of its history and meaning

DIVISION II.

READING. *First and Second Terms.* Analysis of words according to their Elementary Sounds. Articulation and Pronunciation. Compass and Flexibility of Voice. Analysis of Words according to their Derivation and Formation. Practice in Elocution.

GRAMMAR. *Second Term.* Etymology during the first half of the term: Aim to teach the office of each part of speech in the Construction of Sentences. Critical Parsing. During the last half of the term, Construct, Analyze and Parse, sentences of various kinds. Daily exercises throughout the term in the Correction of False Syntax.

Third Term. Analysis and Construction of sentences continued. Rules of Syntax. Capitalization. Consideration of Abridged Propositions and Idiomatic Forms and Constructions. Daily exercise in the Correction of False Syntax.

RHETORIC. *Fifth Term.* Formation of the English Language. Literary Taste. Figurative Language. Style, and its varieties. Punctuation. Composition. Analysis and Amplification of subjects.

LITERARY CRITICISM. *Sixth Term.* Examine the style of the best English Authors of different periods. Study particularly the style of Milton, Addison, Goldsmith, etc. Blair's Rhetoric. Compositions during the term.

Eighth Term. History of English Literature. Rise and Development, in England and America, of Poetry, History, Romance, the Essay, Oratory, and Metaphysics. Principal Authors in each department. Newspapers, Reviews, and Magazines. English Literature compared with that of other nations. Orations and Essays written weekly, and delivered or read in the presence of all the students.

DIVISION III.

ARITHMETIC. *First Term.* The Decimal System, including Decimal Fractions, so called. Factoring, and its application to Common Multiples and Divisors. Fractions. Compound Numbers.

Second Term. Ratio and Proportion. Percentage, with its application to Loss and Gain, Commission, Insurance, etc. Percentage with time, including Interest, Discount, Partnership, and Equation of Payments. Exchange, (Inland and Foreign) Extraction of Second and Third Roots of Numbers. Arabic method of Notation, using bases other than 10; applied particularly to Duodecimals.

ALGEBRA. *Third Term.* Algebraic Notation. Factoring, with application to Divisors and Multiples. Fractions. Equations of First Degree. Extraction of the Roots of Algebraic Quantities. Rules deduced for the extraction of the Roots of Numbers. Radicals.

Fourth Term. (Optional.) Equations of Second Degree. Ratio and Proportion. Series: including the Progressions, Binomial Expansion, Permutation, Undetermined Coefficients, Methods of Interpolations and the Methods of Summing Special Forms; Piling of Balls and Shells. Logarithms, with Methods of Computing the Tables. Exponential Equations, with Position. Interest and Annuities.

GEOMETRY. *Fifth Term.* Straight Line and Surfaces bounded by Straight Lines. The Circle. Extra Theorems and Problems given for demonstration and solution.

Sixth Term. Solids bounded by Planes. The Cylinder. The Cone. Surface and Solidity of Sphere. Plane Trigonometry, with its application to Land Surveying. Leveling. Variation of Magnetic Needle.

Eighth and Ninth Terms (Optional.) Equation of Point, Right Lines and Circle. Equation of Point, Right Lines and Planes in Sphere. Equations of Cylinder and Cone. General Equation of Conic Section referred to its own Plane. General Equation of Second Degree between two variables. Loci. Surface of Revolution. Differential Calculus. Integral Calculus.

PHYSICS. *Seventh Term.* Laws of motion and Mechanics. Hydrostatics and Hydraulics. Pneumatics. Optics. Electricity and Magnetism.

DIVISION IV.

GEOGRAPHY. *First Term.* (1.) General Principles of Geography. Execution of Maps and Outline of South America, 15 lessons; Andes Mountains and countries containing them, 13 lessons; Remaining countries of South America, 5 lessons; Cities of South America, 5 lessons; Review, 5 lessons. Total for South America, 43 lessons. (2.) Outline and Map of North America, 5 lessons; Russian and British America, 5 lessons; New England and New York, 12 lessons. Astronomical Geography, Latitude and Longitude, Day and Night, the Seasons, etc., 5 lessons. Review, 5 lessons.

Second Term. (1.) Remaining States and Territories of the United States, 22 lessons; Mexico, Central America, etc., 5 lessons; Review, 3 lessons. Total for North America, 52 lessons. (2.) Outline and Map of Europe, 5 lessons; Mountains and Rivers of the Continent, 5 lessons; Rapid Glance at the Countries of the Continent, 10 lessons; More thorough study of Britain as a model, 10 lessons; Review, 5 lessons. Total for Europe, 35 lessons.

Sixth Term. (1.) Outline and Map of Asia, 5 lessons; Mountains and Rivers of Asia, 5 lessons; Countries and Cities, 10 lessons. Total for Asia, 20 lessons. (2.) PHYSICAL GEOGRAPHY. Review of the Earth's Form, with a sketch of the Theory of its Origin, 10 lessons; Physical Life of the Earth, Temperature, Atmospheric and Marine Currents, Rains and the Effects of Climatic Conditions on Vegetable and Animal Life, 12 lessons. Historical View of the Earth; the Relations of its Forms and Physical Life to the Development of the Human Race, 8 lessons; Review, 10 lessons. Total for Physical Geography, 40 lessons.

UNITED STATES HISTORY. *Third Term.* Voyages, Discoveries and Indian Tribes, 10 lessons; Colonial History, 15 lessons; French War and Revolution, 20 lessons; Subsequent History, with a special study of Illinois, 15 lessons; Review, 15 lessons. Text-Book—Willson.

ANCIENT HISTORY. *Fourth Term. One Term* (15 *weeks*;) 65 *lessons.* Early Asiatic Nations, 8 lessons; Grecian History, 12 lessons; Roman History, 15 lessons; Most prominent Events of the Middle Ages, 10 lessons; Britons, 5 lessons; Review, 15 lessons. Text-Book—Weber.

ASTRONOMY. *Eighth Term.* Definitions, with Oral Lessons and Exercises, 5 lessons; Constellations, with Maps of the Heavens, 15 lessons; Refraction, Parallax, Time, the Seasons, Motions, Distances and Orbits of Planets, 15 lessons; General Description of the Solar System, 15 lessons; Eclipses and Tides, 5 lessons; Review, 10 lessons. Total, 65 lessons. Text-Books—Robinson's and Burritt's.

DIVISION V.

CHEMISTRY. *Fifth Term.* Names and Properties of Elements; Symbols; Formulæ; Chemical Affinity, etc. Laws of Definite Proportions. Behavior of Chemical Bodies towards each other. Changes of Form, Color, Properties. Air, Water, Light,—their Relations to Organic Life. Organic Chemistry. Food of Plants. Outline of Chemical Analysis, qualitative and quantitative. Philosophy of Chemistry. Provision is now made for an abundant supply of materials in this department.

BOTANY. *Sixth Term.* Structure of Plants, Mode of Growth, etc. Their Relations to each other. Classification. Systems of Analysis, Natural and Linnæan. Written Analysis of at least seventy-five species of native plants by the Natural System.

ANATOMY AND PHYSIOLOGY. *Seventh Term.* General View of the Structure and Functions of the Human Body. Food and the Digestive Process. The Blood—its Chemical Composition and Vital Properties. Respiration and Nutrition. The Nervous System. The Laws of Hygiene.

Zoology. *Ninth Term.* (Optional.) The Sphere and Fundamental Principles of Zoology. General Properties of Organized Bodies. Functions and Organs of Animal Life. Intelligence and Instinct. Metamorphoses of Animals. Geographical Distribution of Animals.

The large and splendid Museum of Natural History is now abundantly provided for. Professor Powell, the Curator, is conducting an expedition to the Rocky Mountains, from which large additions are expected. A great number of specimens have already arrived.

ADMISSION.

This Institution is intended for the training of young persons of both sexes for teachers in the Schools of Illinois.

Students seeking admission to the University should make application to the School Superintendent of the county in which they reside, and are required—

(1.) To be, if males, not less than 17, and if females, not less than 16 years of age.

(2.) To produce a certificate of good moral character, signed by some responsible person.

(3.) To sign a declaration of their intention to devote themselves to School-teaching in this State, in form as follows:

"I hereby declare my intention to become a teacher in the Schools of this State; and agree that, for three years after leaving the University, I will report in writing to the President thereof, in June and December of each year, where I have been, and in what employment."

(4.) To pass a satisfactory examination, before the proper officers, (County School Superintendent) in Reading, Spelling, Writing, Arithmetic, Geography, and the Elements of English Grammar.

EXTRACT FROM THE NORMAL UNIVERSITY ACT.

SEC. 7. Each County within the State shall be entitled to gratuitous instruction for one pupil in said Normal University, and each Representative District shall be entitled to gratuitous instruction for a number of pupils equal to the number of representatives in said district, to be chosen in the following manner: The School Superintendent in each county shall receive and register the names of all applicants for admission to said Normal University, and shall present the same to the County Court, or in counties acting under township organization, to the Board of Supervisors, which said County Court or Board of Supervisors, as the case may be, shall, together with the School Superintendent, examine the applicants so presented, in such manner as the Board of Education may direct, and from the number of such as shall be found to posses the requisite qualifications, such pupil shall be selected by lot; and in representative districts composed of more than one county, the School Superintendent and County Judge, or the School Superintendent and Chairman of the Board of Supervisors in counties acting under township organization, as the case may be, of the several counties composing such representative district shall meet at the Clerk's office of the County Court of the oldest county, and from the applicants so presented to the County Court or Board of Supervisors of the several counties represented, and found to possess the requisite qualications, shall select by lot the number of pupils to which said district is entitled. The Board of Education shall have discretionary power, if any candidate does not sign

and file with the Secretary of the Board a declaration that he or she will teach in the public schools within the State, in case that engagement can be secured by reasonable efforts, to require such candidate to provide for the payment of such fees for tuition as the Board may prescribe.

(AMENDED, FEBRUARY, 1861.)

SEC. 4. Each county in this State shall, hereafter, be entitled to gratuitous instruction for two pupils in said University, to be selected as provided in Section Seven of the Act to which this is an amendment.

If any County or Representative District neglects to make appointments, the President of the University is, by a resolution adopted by the Board of Education, authorized to fill the vacancy by appointing any person of proper age and qualification. Every such person must pass, before the President, an examination similar to that required before the County Superintendent in other cases.

SUGGESTED FORM OF CERTIFICATE.

I hereby certify that I am well acquainted with....., and know him [or her] to be a person of good moral character.

In case the School Superintendent is not able to make the above certificate himself, something like the following endorsement should be appended by the School Superintendent:

I am well acquainted with ....., who signs the above certificate, and believe him to be an entirely reliable man; and, so far as I know and believe, the above-named applicant is a person of good moral character.

Model School Department.

The Model School Department was established in order that there might be a school, exhibiting the best methods of teaching, discipline, and classification, which the Normal Students should visit, and in which they should take part as instructors. Every effort will be put forth to make this as far as may be, a perfect school, conducted upon the best methods, and showing the most wholesome results.

It is intended that the course of study in its several Grades shall embrace all that belongs to a thorough education, from the elements up to a preparation either for College or Business. For the lower classes, a system of Object Lessons has been prepared with the greatest care. The design of this is to awaken the perceptive faculties, and to form a habit of accurate observation. Children thus trained not only make more thorough, but also more practical men and women.

It is divided into three Grades—the High, Grammar, and Intermediate and Primary Schools. Each of these is under the direct charge of an accomplished and efficient Principal, who is assisted in part by permanent teachers, and in part by the pupil teachers from the Normal School. Their work is subjected to the most rigorous supervision, and suggestions are constantly made for their guidance and improvement.

The Classical Course is very thorough, and is much more extended than that of some Colleges. Our young men enter Harvard and Yale without conditions.

The accompanying plans of study will give a general idea of the subjects to be pursued in the several Grades, and the time allotted to each. It will be observed that two distinct courses are arranged for the High School: one to prepare students for College, and the other for general Business. The two, however, are made to blend whenever practicable.

The only requisites for admission are a good character, and a tuition fee of thirty dollars per year in the High School, twenty-five in the Grammar School, and twelve in the Intermediate and Primary School. Pupils, on being examined, are classed according to their attainments.

Boys and girls from abroad may be confidently intrusted to the care of the Principals; and besides the monthly report of scholarship and deportment at school, which is to be sent to all parents, will be included, if desired, a careful statement of each pupil's general deportment, and of the manner of spending leisure hours.

Physical Exercises are daily practiced by the entire school, and the effect upon the health of the pupils is excellent.

COURSE OF STUDY

FOR

THE HIGH SCHOOL.

	FIRST TERM.		SECOND TERM.		THIRD TERM.	
	General Course.	Classical Course.	General Course.	Classical Course.	General Course.	Classical Course.
FIRST YEAR.	Algebra, Geog'phy of the U. S. and Europe, Latin or German.	Algebra, Geog'phy of the U. S. and Europe, Latin.	Algebra, English Grammar and Analysis, Latin or German.	Algebra, English Grammar and Analysis, Latin.	Algebra, Physiology, Latin or German.	Algebra, Physiology, Latin.
SECOND YEAR.	Geometry, Natural Philosophy, Latin or German.	Geometry, Natural Philosophy, Latin.	Geometry, Physical Geography, Latin or German.	Geometry, Physical Geography, Latin.	Botany, Ancient History, Latin or German.	Botany, Ancient History, Latin.
THIRD YEAR.	Rhetoric, History of Rome, Latin, French or German.	Greek, History of Rome, Latin.	Astronomy, Hist. of Mod. Europe, Latin, French or German.	Greek, Hist. of Mod. Europe, Latin.	Book-Keeping, English Language & Literature, Lat., French or Ger.	Greek, English Language & Literature, Latin.
FOURTH YEAR.	Intellec'l Philosophy, Hist'ry of Civiliz'tion, Latin, French or German.	Greek, Classical Antiquities, Algebra Reviewed, Latin.	Moral Philosophy, Chemistry, Latin, French or German.	Greek, Classical Antiquities, Geometry Reviewed, Latin.	Constitutional Law. Zoology, Latin, French or German.	Greek, Classic'l Ant. & Rev. of Arith. & Eng. Gr., Latin.

COURSE OF STUDY

IN THE

GRAMMAR SCHOOL.

FIRST YEAR.	SECOND YEAR.
FIRST TERM.	*FIRST TERM.*
Reading and Phonics. *4th Reader.* Oral Spelling. Writing. Geog. of Ill., Map Drawing. Introductory Grammar. *Etymology.* Written Arithmetic. *1st Principles.*	Reading and Analysis of pieces read. *5th Reader.* Writing and Written Spelling. Geog. of N. A. *Gazetteer and Map Drawing.* Higher Arithmetic. Common School Gram. *Etymology.*
SECOND TERM.	*SECOND TERM.*
Reading and Phonic Analysis. *4th Reader.* Oral Spelling. Writing. Geog. of U. S. *Map Drawing.* Written Arithmetic. *Fractions.* Introductory Grammar. *Syntax.*	Reading and Phonic Analysis. Spelling and Writing. Higher Arithmetic. Grammar. *Syntax.* Geog. of Europe, *Map Drawing.* U. S. Hist. Through the Revolution.
THIRD TERM.	*THIRD TERM.*
Declamation and Composition. Written Spelling. Mental Arithmetic. Geog of S. A. *Map Drawing.* Common School Gram. *Diagraming.*	Geography of Asia and Africa. U. S. History since the Revolution. Elementary Algebra. Declamation and Composition.

On entering this grade from other Schools than the Intermediate, pupils will be examined and work assigned them in the First or Second year of the Course, according to their previous attainments. And after such assignment they will be promoted to classes further on in the course, if their success shows that promotion is deserved.

During the Second year such pupils as can do so are allowed to take any of the languages in the High-School.

COURSE OF STUDY

IN THE

PRIMARY AND INTERMEDIATE SCHOOL.

C CLASS, 1st TERM, 15 WEEKS.

LANGUAGE.—*Reading* from Charts, and from the First Reader to page 42. Tones.—Special attention given to distinctness of utterance and naturalness of expression.

Printing of words found in the reading lesson—the word being considered as a whole.

NUMBER.—Counting, reading and writing numbers to 100; addition and subtraction of numbers under 5, by means of objects. Roman numerals to XXVI in connection with the reading lesson.

General Lessons.

Human Body.—Names and uses of the organs. The five senses. Examination of the properties of familiar objects.

Animals.—Study of parts, actions and habits of familiar animals.

Color.—Naming and distinguishing principal colors.

Form.—Naming and distinguishing plane faces.

Size.—Relative proportion of objects.

Place.—Relative position of different objects.

Drawing straight lines in different positions.

C CLASS, 2d TERM, 13 WEEKS.

LANGUAGE.—*Reading*—finish the First Reader. Use of the punctuation points and capital letters as found in the Reader. Distinction between an assertion and a question, and the inflections required for each.

Spelling of all the words found in the reading lessons, and phonic spelling of monosyllabic words without silent letters.

Printing of any words found in the reading lessons.

NUMBER.—Reading and writing numbers to 1000; addition and subtraction of numbers under 10 by objects. Roman numerals to XL in connection with the reading lesson.

General Lessons.

Human Body.—Adaptation of the organs to use.

Animals.—Characteristic parts of familiar animals.

Color.—Naming and distinguishing tints and shades.

Form.—Angles formed by straight lines.

Place.—Points of compass.

Inventive Drawing.—Planes and simple forms.

C CLASS, 3d TERM, 12 WEEKS.

LANGUAGE.—Second Reader to page 84. Constant drill in the use of punctuation marks, capital letters, tones, inflections, and in phonics.

Spelling orally, and by printing the words in the reading lesson, and phonic spelling of any words of one syllable.

Writing of the parts of letters on slates, and drill upon easy combinations. Each child learns to write his own name.

NUMBER.—Reading and writing numbers to 10,000. Addition and subtraction of numbers, the sum or minuend not exceeding 15. Multiplication, the product not exceeding 12. Division, the dividend not exceeding 12. Daily exercise in rapid combination of numbers.

General Lessons.

Size.—Necessity of a standard unit of measure.

Place.—Drawing the schoolroom according to a scale. Measuring done by the children under the direction of the teacher.

Color.—Patterning.

Objects.—Named, arranged, &c.

Plants.—Pointing out and naming their parts.

Drawing.—Combinations of planes.

B CLASS, 1st TERM, 15 WEEKS.

LANGUAGE.—Completion of the Second Reader. Same care in all particulars as before.

Spelling from the Reader as before, punctuation, &c.

Original Composition in simple sentences, with practical use of capitals and punctuation marks.

Writing of easy words and sentences on slates.

NUMBER.—Reading and writing numbers to 100,000. Addition and subtraction of numbers, the sum or minuend under 20. Multiplication, the multiplicand not exceeding 25. Division, the dividend not exceeding 25. Roman numerals to C.

Drawing.—Curves and simple leaves.

General Exercises.

Place.—Drawing the school yard according to a scale.

Color.—Shades, tints and hues formed.

Plants.—Their habits.

Birds.—Names and parts. The three kingdoms of nature.

Weight.—Necessity of adopting standard measures. Practice in judging of the weight of various objects.

Sounds.—Distinguished and compared.

B CLASS, 2d TERM, 13 WEEKS.

LANGUAGE.—Third Reader to page 72.

Spelling from the Reader, phonically and by letter.

Original Composition as before.

NUMBER.—Reading and writing numbers expressed in two periods. Practice in adding and subtracting rapidly. Multiplication, the product not exceeding 50. Division, the dividend not exceeding 50. Roman numerals to M. Primary Arithmetic.

WRITING in Book No. 1. with pencil.

DRAWING of simple plane figures in perspective.

General Lessons.

Color.—Tints, shades, and hues continued.
Form.—Triangles, parallel lines, four sided figures.
Insects.—Parts named and described from specimens.
Birds.—Habits ascertained from the forms of organs.

B CLASS, 3d TERM, 12 WEEKS.

LANGUAGE.—Third Reader to page 145.
Spelling.—Analytical Speller through lesson 35, with original sentences illustrating the use of the words. Work to be written.
NUMBER.—Tables learned from objects; mental exercises in addition. Subtraction. Multiplication and division. Primary Arithmetic.
WRITING.—Use of copy book, pen and ink.
DRAWING of leaves and simple figures in perspective.

General Lessons.

Place.—Drawing of the school yard to a scale, with surrounding streets, walks, trees, &c.
Objects.—Essential and distinctive qualities of objects.
Form.—Polygons—Circle, named and drawn.
Sounds.—Distinguished as to time and tune.
Birds.—Mode of life, habitation and food.

A CLASS, 1st TERM, 15 WEEKS.

LANGUAGE.—Third Reader to page 217.
Spelling.—Analytical Speller through lesson 68, to be studied as before.
NUMBER.—Development to three places of the principle of the decimal notation. Addition and subtraction of numbers occupying not more than three places.
GEOGRAPHY.—Elementary geography to Section III.
WRITING.—Book No. 2.
DRAWING.—Simple combinations in perspective from cards.

General Lessons.

Animals.—A more systematic examination, with a view to classification. Children to judge of their structure from their mode of life.
Plants.—Their nature, uses of different parts, different kinds of roots and stems.
Objects.—Thorough examination of objects, parts, qualities, uses; adaptation of qualities to uses.
Form.—Solids, prisms.
Color.—Production of secondary colors from primaries.

A CLASS, 2d TERM, 13 WEEKS.

LANGUAGE.—Completion of the Third Reader.
Spelling.—Analytical Speller, through lesson 90. Written work.
NUMBER.—Development of the principle of decimal notation, to six places. Addition and subtraction of numbers occupying not more than six places. Multiplication of numbers occupying not more than five places, by numbers occupying one

place. Division, the dividend occupying not more than six places, divisor one place.

GEOGRAPHY.—Elementary Geography through page 66.

WRITING in the copy-book with ink.

DRAWING.—Outlines of simple objects and easy shading.

General Lessons.

Animals.—Domestic Dogs.

Plants.—Buds, leaves, circulation of the sap.

Objects.—Comparison of the qualities of different objects.

Form.—Cylinders, cones, &c.

Color.—Secondary colors continued.

A CLASS, 3d TERM, 12 WEEKS.

LANGUAGE.—Fourth Reader—"Phonic Analysis," with "Directions and Explanations," and reading to page 47.

Spelling.—Analytical Speller through lesson 115.

ORIGINAL COMPOSITIONS read to the school once a week.

NUMBER.—Complete development of the principle of decimal notation in both directions. Multiplication of numbers occupying not more than six places, by numbers occupying not more than two places. Division, the dividend occupying not more than six places, divisor occupying two places.

GEOGRAPHY.—Completion of the Elementary.

WRITING in the copy-book.

DRAWING.—Sketching of simple objects.

General Lessons.

Animals.—Miscellaneous lessons.

Plants.—Flowers and fruit.

Objects.—Material and structure.

Form.—The pyramid and sphere.

Color.—Harmony.

INTERMEDIATE, 1st TERM, 15 WEEKS.

LANGUAGE.—Fourth reader to page 119.

Spelling.—Analytical Speller through lesson 144. *Written Exercises* on the subject given.

NUMBER.—Rudimentary written arithmetic to multiplication.

GEOGRAPHY.—Study of Illinois. Map drawing.

WRITING in the copy-book.

DRAWING from cards.

General Lessons.

Birds.—Classification.

Plants.—Organs of vegetation and of reproduction.

Form.—To Chap. 10 of "Hill's First Lessons in Geometry."

Written abstracts on general lessons.

INTERMEDIATE, 2d TERM, 13 WEEKS.

LANGUAGE.—Fourth Reader to page 191.
Spelling.—Analytical Speller through lesson 165.
Original Composition continued.
NUMBER.—Rudimentary Written Arithmetic through Fractions.
GEOGRAPHY.—North America, Intermediate Geography.
WRITING in the copy-book.
DRAWING.—From cards.

General Lessons.

Same subjects as before more fully developed.

INTERMEDIATE, 3d TERM, 12 WEEKS.

LANGUAGE.—Completion of the Fourth Reader.
Spelling.—Analytical Speller through lesson 195.
NUMBER.—Rudimentary Written Arithmetic through Fractions.
GEOGRAPHY.—South America, Intermediate Geography.
WRITING in the copy-book.
DRAWING.—Sketching.

General Lessons.

Animals.—Fourth step.
Inventive Drawing.—Fourth step.
Minerals.—Distinguished and named from specimens.

In all the reading, distinctness of utterance and naturalness of expression are carefully taught and insisted upon.

Questions upon the meaning of the lesson are asked, from the first lesson in the First Reader to the last in the Fourth.

Many of the lessons in the Fourth Reader are accompanied by samples of such questions. The teacher is specially requested to observe these, and to imitate or improve upon them, to the best of his ability.

Throughout the entire course in Spelling, let original sentences be composed and written by the pupil, and accurately capitalized and punctuated. In short, this should be made an exercise in thinking and accurate writing.

Attention is given to Morals and Manners, as occasion may suggest or necessity require.

Daily exercises in Singing—both by reading and by rote, and in Gymnastics.

ADDITIONAL INFORMATION.

Thorough Discipline will be enforced in every department of the University.

Experience has shown it to be very necessary that a perfect understanding should exist between the President and those with whom the students board, in respect to the habits and conduct of students at their rooms. This will, accordingly, be carefully attended to.

Physical Exercises will be had daily in all the departments. Dr. Lewis's System of Light Gymnastics is now thoroughly introduced, and the results are in the highest degree satisfactory.

Board can be obtained in good families for about $4.00 a week, exclusive of fuel, lights and washing; when these are furnished, except washing, the charge is a little more.

The expense of board is reduced about one-half by boarding in clubs, and by self-boarding. Rooms can be secured, at reasonable rent, in the village.

The following may be considered a near approximation to the necessary Expenses for one year, exclusive of pocket-money, apparel, traveling, and board in vacations:

Board, 40 weeks, . . .	from $80 00 to	$160 00
Washing, . . .	" 15 00 "	30 00
Books and Stationery, . .	" 5 00 "	10 00
Total, . . .	$100 00	$200 00

Tuition is Free in the Normal Department.

Text-Books, in the same Department are furnished free of expense, but every student is required to make good all damages received by books while in his possession.

Students are advised to bring with them such books as they may have, but not to purchase others until they arrive at the University.

The Apparatus is excellent in quality, and sufficiently ample for ordinary purposes of illustration.

The Diploma of the University is conferred upon all those who creditably complete its full course of study and practice.

There are two Literary Societies, the Philadelphian and the Wrightonian, each of which has a well-selected library.

The Museum and Library of the Illinois Natural History Society are located in the University building, to which the students of the University will have access, under suitable restrictions.

CALENDAR FOR 1870-71.

The SCHOLASTIC Year of Thirty-nine Weeks is divided into Three Terms.

The FIRST TERM begins on Monday, September 12th, and closes on Thursday, December 15th, 1870. Examination at the close of Term. Semi-annual Meeting of the Board of Education, December 6th.

Vacation of Two Weeks.

The SECOND TERM begins on Tuesday, January 3rd, and closes on Thursday, March 30th, 1871.

Vacation of One Week.

The THIRD TERM begins on Monday, April 10th, and closes on Thursday, June 29th. Examination during the last week of the Term. Annual Meeting of the Board of Education, Wednesday, June 28th. Commencement Exercises, Thursday, June 29th.

Meeting of Alumni, Wednesday, June 28th.

UNIVERSITY OF ILLINOIS-URBANA
3 0112 111881709
